	The composition of Social Media Cell is to facilitate sharing of ideas, thoughts, information and collection of feedback through social networking sites in the overall development of the Institute.
	Objectives:
	    ♣ To nurture the image of Brand IARE by publishing events and achievements.
	    ♣ To Provide relevant information to various stake holders
	    ♣ To show case the facilities available in the Institute.
	
	Name / Designation / Responsibility table below

Name	Designation	Responsibility
Ms. I. Shireesha	Assistant Professor, MBA	Convener
Mr. A Srikanth	Assistant Professor, EEE	Co-Convener

The Social media cell aims at posting various activities, events,

publications, job opportunities, and achievements of IARE on different media handles i.e. Facebook, Twitter, Instagram and YouTube, thereby improving the reach of various events, Programmes and news updates on campus.

• Teaching Load of each Faculty	**21 hour per week**	

• Internal Continuous Evaluation System and place	**Continuous Internal Assessment (CIA):** For each theory course the CIA shall be conducted by the faculty / teacher handling the course. CIA is conducted for a total of 30 marks, with 20 marks for Continuous Internal Examination (CIE), 05 marks for Quiz and 05 marks for Alternative Assessment Tool (AAT). Two CIE Tests are Compulsory and sum of the two tests, along with the scores obtained in the quizzes (average of Quiz – 1 and Quiz – 2) / AAT shall be considered for computing the final CIA of a student in a given course. The CIE Tests/quizzes/AAT shall be conducted by the course faculty with due approval from the HOD. Advance notification for the conduction of Quiz/AAT is mandatory and the responsibility lies with the concerned course faculty. Continuous Internal Examination (CIE): Two CIE exams shall be conducted at the end of the 8th and 16th week of the semester respectively for 10 marks each of 2 hours duration consisting of five descriptive type questions out of which four questions have to be answered. The valuation and verification of answer scripts of CIE exams shall be completed within a week after the conduct of the Examination. **Quiz – Online Examination** Two Quiz exams shall be conducted along with CIE in online mode for 5 marks each, consisting of 10 short answers questions (Definitions and Terminology) and 10 multiple choice questions (having each question to be answered by tick marking the correct answer from the choices (commonly four) given against it. Such a question paper shall be useful in testing of knowledge, skills, application, analysis, evaluation and understanding of the students. Average of two quiz examinations shall be considered. **Alternative Assessment Tool (AAT)** In order to encourage innovative methods while delivering a course, the faculty members are encouraged to use the Alternative Assessment Tool (AAT). This AAT enables faculty to design own assessment patterns during the CIA. The AAT enhances the autonomy (freedom and flexibility) of individual faculty and enables them to create innovative pedagogical practices. If properly applied, the AAT converts the classroom into an effective learning centre. The AAT may include tech talk, tutorial hours/classes, seminars, assignments, term paper, open ended experiments, concept videos, partial reproduction of research work, oral presentation of research work, developing a generic tool-box for problem solving, report based on participation in create-a-thon, make-a-thon, code-a-thon, hack-a-thon conducted by reputed

	organizations / any other. etc. However, it is mandatory for a faculty to obtain prior permission from the concerned HOD and spell out the teaching/assessment pattern of the AAT prior to commencement of the classes. **Continuous Internal Assessment (CIA) for Laboratory Courses** Each laboratory will be evaluated for a total of 100 marks consisting of 30 marks for internal assessment and 70 marks for semester end lab examination. Out of 30 marks of internal assessment, continuous lab assessment will be done for 20 marks for the day to day performance and 10 marks for the final internal lab assessment. All the drawing related courses are evaluated in line with laboratory courses. The distribution shall be 30 marks for internal evaluation (20 marks for day–to–day work, and 10 marks for internal tests).
• Student's assessment of Faculty, System in place	An online feedback system has been prepared to document the feelings of the Students about the College and more specifically about the Academic and Extracurricular activities. These online feedbacks are taken usually at the beginning and ending of each semester, on a 5-point scale. Student's feedback on teachers helps the faculty in evaluating their strength and weakness and in the improvement of teaching-learning methods. The parameters set forth for assessment of faculty include teaching, pedagogical, and behavioral aspects. https://www.iare.ac.in/sites/default/files/feedbacks/Early_Semester_Feedback_by_Students_on_Teacher.pdf The evaluation of feedback is done in a very confidential manner. Areas of improvement (with feedback below 3.0) are identified and discussed with faculty to plan strategies for overcoming the deficits. Feedback from students helped the Institute in ▪ Techniques in teaching suitable and are having impact on Student's Learning ▪ Monitoring adequacy of Teaching-Learning Strategies. ▪ Knowing Difficulties of students in learning Course Material. ▪ Improving instructions by teaching practices.

20. BEST PRACTICES ADOPTED IF ANY

- Best Practice – I

A. Title of the Practice: Promotion of Research

Research is the major component of Higher Education. It widens the intellectual perspective of both the staff and the students. The mental caliber of an individual is adjudged by the contribution made by him/ her to research. The research achievement of both the teachers and the students is the most important factor that determines the rank of the institutions. Generation of new knowledge and the expansion of the existing knowledge pave way for the progress of the country in the world arena as the economic development of any country depends solely on research. This institution vies with other institutions in providing opportunities, creating and augmenting infrastructure facilities encouraging and supporting staff and students to launch on research projects.

B. Objectives of the Practice

- To keep pace with the relentless wheel of change and update the intellectual caliber of the faculty.
- To encourage the faculty to pursue Ph.D.
- To acquire guideship to produce more research scholars.
- To motivate the faculty to apply for the major and minor research projects by providing guidelines and details of funding agencies.
- To fulfill the requirements to promote the research departments into research centers.
- To collaborate with other institutions and universities in and abroad.
- To arrange for interface among the institutions, industries and the public to take up research projects relevant for the present day.
- To encourage the faculty and the students to organize and present research papers in the national/ international seminars/ conferences/ workshops.
- To publish quality research articles in reputed journals, edit study materials for the prescribed syllabus and author books of high originality.
- To provide seed money for research activities.

C. The Context

Being aware of the need of research in Higher Educational Institutions, the Institution has multiplied the required infrastructure facilities for research in the Institution. The college

is supported by DST - FIST from the academic year 2018-19 to enhance the research activities.

- All Departments have been provided with laboratories filled with advanced High Tech equipments.
- The number of books required for research has been added to the library stock.
- The research section in the library displays the copes of dissertations, theses and project reports of the scholars.
- Easy access is made to net facility in the Library and departments.
- Staff and students are encouraged to organise/ attend and present papers in the research-oriented conferences/ seminars within and out of the Institution and publish research papers in peer reviewed journals with high impact factor.
- Lack of interest to take up research.
- Lack of time on the part of the teachers who are bent on improving the academic standard of the first generation learners.
- Reluctance to learn and use modern technological devices for research.

D. The Practice

The Research committee has created a research environment at the Institution through Research Forum. It has provided a platform for the Ph.D. Research Scholars to make the presentation of their findings in the Research forum. The views and comments offered by the Principal, the Guides of the Research Scholars, the other teachers and peers have instilled in them confidence to focus on their research.

- The institution motivates the faculty to do research for Ph.D. The Institution encourages the teachers to undertake Major and Minor Research Projects funded by AICTE, UGC, DST or other agencies. Support facilities for research.
- Leave is sanctioned to the staff who are on the verge of completing their research work.
- Special Permission and Leave are given on request to visit to various universities and libraries for data collection.
- The management motivates the staff to go to the educational institutions in other countries for paper presentation by procuring travel grant from the AICTE.
- MoUs is formed with International Universities, to promote teaching, learning and research.
- The management extends financial assistance to the self-financed faculty who make research publications in the journals with high impact factor.

E. Problems faced in the pursuit of research

- The gap between academia and industries is not fully bridged to fulfil the needs of industries due to lack of time for the internship of the students in the industries.
- Getting funds from various funding agencies is a challenge to the staff and the students.
- The period of hands-on training in the industries is inadequate to address challenges faced in the job market.
- Field Research is planned to be undertaken in Extension Programme to solve real life problems.
- The students and the teachers have to be encouraged to take up Interdisciplinary and socio- economic developmental research.
- Ph.D. holders can be motivated to publicize their research in the form of books.

F. Evidence of Success

- 111 faculty with Ph.D
- ₹ 877.62 Lakh amount sanctioned towards Research Projects and Schemes from various agencies.

- 60 State/National Level Seminars /Workshops were organized by the Departments and IQAC.
- Staff has published 618 papers in the National and International Journals and 255 in conferences.
- 93Utility Patents Published & Granted, 44 Design Patents published & granted.
- A total of 40 books have been published by faculty.
- 40 students have published 80 papers in the Journals and 16 students have presented 100 papers in the Conferences.
- 50 staff acted as resource persons and enriched others with their expertise in their subjects.

- Best Practice - II:

  A. Title of the Practice: Integration of Information and Communication Technology (ICT) resources into Classroom teaching

  The Information and Communication Technology to be precise has become a driving force behind economic growth and a developmental tool as well. ICT is an extended term for Information technology which is a technological source to make information available at the right time, right place in the right form to the right user. Earlier, one had to wait for the newspapers to get the information across the world. Now with the smarter technology, information can be accessed from anywhere using smart phones and gadgets. All this is made possible with the help of Information and Communication Technology. Information technology has been influencing our lives in the recent years in the fields of education, healthcare, and business. Going an extra mile, Information and communication technology in Institution has had a major impact.

  B. Objectives of ICT implementation in education:
  - To implement the principle of life-long learning / education.
  - To increase a variety of educational services and medium / method.
  - To develop a system of collecting and disseminating educational information.
  - To promote technology literacy of all citizens, especially for students
  - To promote the culture of learning at institution (development of learning skills, expansion of optional education, open source of education, etc.)
  - To support Institution in sharing experience and information with others.

  C. The Context

  In this technological era, ICT in education has compelled many higher education institutions to get accustomed to smart technology. This communication software uses computers, the internet, and multimedia as the medium of communication which helps the students for an advanced learning by using the specific instructional strategies and techniques. ICT Encourages participatory learning and student centric learning wherein the mode, technique/method and the pace of learning are decided by the students. Some of the instructional strategies of ICT are mentioned here under:

  Computer-based learning, Internet, Classroom Learning, Video conferencing

  UGC recommended four quadrant approach (Video, Text, Self-Assessment & Learn More).

  In this context, the Institute designed a learning platform called Learning Management system (LMS-Akanksha). LMS is an indigenous developed Resource Platform for all the courses consisting of full course stack, which can be accessed by students at their convenient time.

  D. The Practice:

  ICT facilities are adequately available in the institution for academic purposes. There are well equipped computer laboratories in the institution. The departments have their own computer facilities along with printers. Apart from computer facilities in the departments, Digital library facility is also there. Computers having internet connection facilities, 700 MBPS leased line for internet access is extended to the entire campus. Campus networking

is with Fibre Optic cables. Classrooms are equipped with audio visual aids to cater to the needs of the students.

Objectives of Institute's ICT:
- One-stop web and mobile based interactive e-content for all courses.
- High quality learning experience using multimedia on anytime, anywhere basis.
- Conduct of MOOCs allowing easy access, monitoring and certification.
- Peer group interaction and discussion forum to clarify doubts.
- Hybrid model of delivery that adds to the quality of classroom teaching.

ELRV Lectures are recorded in the ICT studio and uploaded to the LMS Portal and YouTube Channel.

ICT Infrastructure:

The ICT infrastructure includes Facilities for e-learning, e-content development, Digital Library, Wi-Fi internet availability and a good number of Workstations and LCDs. The institution has introduced NPTEL massive online open courses by using ICT aids for some courses like IOT, Python Programming.

E. Evidence of Success:
- As of 15th April 2022 a total of 3933 videos have been uploaded in the YouTube channel for the benefit of students.
- No. of views and watch time of videos uploaded in the You Tube Channel has increased.
- 707064 views to the videos uploaded in the YouTube Channel as on 15th April 2022.
- Majority of the students have been benefited through Learning Management System (Akanksha) which facilitated students for self-learn.
