## I. COURSE OVERVIEW:

The World Wide Web continues to provide a foundation for the development of a broad range of increasingly influential and strategic technologies, supporting a large variety of applications and services, both in the private and public sectors. There is a growing need for management and decision makers to gain a clearer understanding of the application development process, from planning through to deployment and maintenance. This module will give you an insight into architectures, protocols, standards, languages, tools and techniques; an understanding of approaches to more dynamic and mobile content; and demonstrate how you can analyze requirements, plan, design, implement and test arrange of web applications.

## II. COURSE PRE-REQUISITES:

| Level | Course Code | Semester | Prerequisites                            | Credits |
|-------|-------------|----------|--|---------|
| UG    | ACS001      | Ι        | Computer Programming                     | 4       |
| UG    | ACS003      | III      | Object Oriented Programming Through Java | 4       |

#### **III. MARKS DISTRIBUTION:**

| Subject                     | SEE Examination | CIA<br>Examination | Total Marks |  |
|-----------------------------|-----------------|--------------------|-------------|--|
| Web Technologies Laboratory | 70 Marks        | 30 Marks           | 100         |  |

## IV. DELIVERY / INSTRUCTIONAL METHODOLOGIES:

| ~ | Chalk & Talk             | X Quiz |          | × | Assignments  | × | MOOCs  |  |  |  |
|---|--------------------------|--------|----------|---|--------------|---|--------|--|--|--|
| ~ | LCD / PPT                | ×      | Seminars | ~ | Mini Project | > | Videos |  |  |  |
| ~ | ✓ Open Ended Experiments |        |          |   |              |   |        |  |  |  |

## V. EVALUATION METHODOLOGY:

Each laboratory will be evaluated for a total of 100 marks consisting of 30 marks for internal assessment and 70 marks for semester end lab examination. Out of 30 marks of internal assessment, continuous lab assessment will be done for 20 marks for the day to day performance and 10 marks for the final internal lab assessment.

**Semester End Examination (SEE):** The semester end lab examination for 70 marks shall be conducted by two examiners, one of them being Internal Examiner and the other being External Examiner, both nominated by the Principal from the panel of experts recommended by Chairman, BOS.

| 20 % | To test the preparedness for the experiment.                           |
|------|--|
| 20 % | To test the performance in the laboratory.                             |
| 20 % | To test the calculations and graphs related to the concern experiment. |
| 20 % | To test the results and the error analysis of the experiment.          |
| 20 % | To test the subject knowledge through viva – voice.                    |

The emphasis on the experiments is broadly based on the following criteria:

#### **Continuous Internal Assessment (CIA):**

CIA is conducted for a total of 30 marks (Table 1), with 20 marks for continuous lab assessment during day to day performance, 10 marks for final internal lab assessment.

| Component          |                        | T-4-1 M-siler                    |             |  |  |
|--------------------|------------------------|----------------------------------|-------------|--|--|
| Type of Assessment | Day to day performance | Final internal lab<br>assessment | Total Marks |  |  |
| CIA Marks          | 20                     | 10                               | 30          |  |  |

Table 1: Assessment pattern for CIA

#### **Continuous Internal Examination (CIE):**

One CIE exams shall be conducted at the end of the 16<sup>th</sup> week of the semester. The CIE exam is conducted for 10 marks of 3 hours duration.

| Preparation | Performance | Algorithm | Results and<br>Error Analysis | Viva | Total |
|-------------|-------------|-----------|-------------------------------|------|-------|
| 2           | 2           | 2         | 2                             | 2    | 10    |

|      | Program Outcomes (POs)   | Strength | Proficiency assessed<br>by    |
|------|--|----------|-------------------------------|
| PO 1 | <b>Engineering knowledge</b> : Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.   | 1        | Experiments and Viva<br>voice |
| PO 2 | <b>Problem analysis</b> : Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.  | 2        | Experiments and Viva<br>voice |
| PO 3 | <b>Design/development of solutions:</b> Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations. | 3        | Mini Project                  |
| PO 5 | <b>Modern tool usage:</b> Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.   | 2        | Mini Project                  |

### VI. HOW PROGRAM OUTCOMES ARE ASSESSED:

3 = High; 2 = Medium; 1 = Low

### VII. HOW PROGRAM SPECIFIC OUTCOMES ARE ASSESSED:

|       | Program Specific Outcomes (PSOs)   | Strength | Proficiency assessed<br>by |
|-------|--|----------|----------------------------|
| PSO 1 | <b>Professional Skills:</b> The ability to understand, analyze<br>and develop computer programs in the areas related to<br>algorithms, system software, multimedia, web design,<br>big data analytics, and networking for efficient analysis<br>and design of computer - based systems of varying<br>complexity. | 2        | Videos                     |
| PSO 2 | <b>Problem solving skills:</b> The ability to apply standard practices and strategies in software project development using open-ended programming environments to deliver a quality product for business success.   | 1        | Mini Project               |
| PSO 3 | <b>Successful career and Entrepreneurship:</b> The ability to employ modern computer languages, environments, and platforms in creating innovative career paths to be an entrepreneur, and a zest for higher studies.  | -        | -                          |

**3** = High; **2** = Medium; **1** = Low

# VIII. COURSE OBJECTIVES (COs):

| The co | The course should enable the students to:   |  |  |  |  |  |  |  |  |
|--------|---|--|--|--|--|--|--|--|--|
| Ι      | Demonstrate the ability to retrieve data from a database and present it in a web page.      |  |  |  |  |  |  |  |  |
| II     | Use FTP to transfer web pages to a server.  |  |  |  |  |  |  |  |  |
| ш      | Construct pages that meet, guidelines for efficient download and cater to the needs of an   |  |  |  |  |  |  |  |  |
| 111    | identified audience.  |  |  |  |  |  |  |  |  |
| IV     | Evaluate the functions of specific types of web pages in relationship to an entire web site |  |  |  |  |  |  |  |  |

| CLO<br>Code | /      |  | PO's<br>Mapped | Strength<br>of<br>Mapping |
|-------------|--------|--|----------------|---------------------------|
| ACS105.01   | CLO 1  | Understand the basic HTML tags   | PO1,PO3        | 2                         |
| ACS105.02   | CLO 2  | Understand and apply the design<br>principles of HTML and Java Script to<br>create static and dynamic web pages.                               | PO1,PO3        | 3                         |
| ACS105.03   | CLO 3  | Understand the difference between<br>HTML and XML scripting languages.   | PO2            | 2                         |
| ACS105.04   | CLO 4  | Analyze the client side validation procedure in web applications.  | PO2,PO3,PO5    | 3                         |
| ACS105.05   | CLO 5  | Identify the difference between the JSP and Servlet.   | PO2            | 2                         |
| ACS105.06   | CLO 6  | Able to use web server and data base<br>servers using specific vendor related<br>software's.   | PO3,PO5        | 3                         |
| ACS105.07   | CLO 7  | Create web applications by using the concepts like JSP and Servlet.  | PO2,PO5        | 2                         |
| ACS105.08   | CLO 8  | Identify and perform requesting and response generation process in web servers.  | PO1,PO2        | 2                         |
| ACS105.09   | CLO 9  | Understand the PHP downloading,<br>installation and configuring PHP<br>process   | PO1            | 2                         |
| ACS105.10   | CLO 10 | Understand branching statements, loop statements and use them in problem solving.  | PO1,PO2        | 2                         |
| ACS105.11   | CLO 11 | Identify the methods to read data from web pages using PHP.  | PO2            | 2                         |
| ACS105.12   | CLO 12 | Understand how MYSQL server is<br>connected with PHP   | PO1,PO5        | 2                         |
| ACS105.13   | CLO 13 | Able to perform crude operations in data base servers, operations in PHP.  | PO5            | 3                         |
| ACS105.14   | CLO 14 | Familiar with basic HTML, XML, JSP<br>and PHP techniques: Creation of web<br>pages, that includes verification and<br>validation of web pages. | PO1,PO2        | 2                         |

## IX. COURSE LEARNING OUTCOMES (CLOs):

**3** = High; **2** = Medium; **1** = Low

### X. MAPPING COURSE LEARNING OUTCOMES LEADING TO THE ACHIEVEMENT OF PROGRAM OUTCOMES AND PROGRAM SPECIFIC OUTCOMES:

| Course<br>Learning | Program Outcomes (POs) |     |     |     |     |     |            |            |     |      | Program Specific<br>Outcomes (PSOs) |      |      |      |      |
|--------------------|------------------------|-----|-----|-----|-----|-----|------------|------------|-----|------|-------------------------------------|------|------|------|------|
| Outcomes<br>(CLOs) | PO1                    | PO2 | PO3 | PO4 | PO5 | PO6 | <b>PO7</b> | <b>PO8</b> | PO9 | PO10 | PO11                                | PO12 | PSO1 | PSO2 | PSO3 |
| CLO 1              | 1                      |     | 3   |     |     |     |            |            |     |      |                                     |      | 2    |      |      |
| CLO 2              | 2                      |     | 3   |     |     |     |            |            |     |      |                                     |      | 2    | 1    |      |
| CLO 3              |                        | 2   |     |     |     |     |            |            |     |      |                                     |      |      |      |      |
| CLO 4              |                        | 2   | 2   |     | 2   |     |            |            |     |      |                                     |      | 2    | 2    |      |

| Course<br>Learning |     |     |     |     |     |     |            |            | Program Specific<br>Outcomes (PSOs) |      |      |      |      |      |      |

## XIII. SYLLABUS

|             | LIST OF EXPERIMENTS   |  |  |  |  |  |  |
|-------------|---|--|--|--|--|--|--|
| Week-1      | INSTALLATIONS   |  |  |  |  |  |  |
| Installatio | Installation of XAMPP and WAMP servers  |  |  |  |  |  |  |
| Week-2      | HTML  |  |  |  |  |  |  |
| b. Use t    | te a table to show your class time table.<br>ables to provide layout to your HTML page describing your college infrastructure.<br><span> and <div> tags to provide a layout to the above page instead of a table layout.</div></span> |  |  |  |  |  |  |
| Week-3      | HTML  |  |  |  |  |  |  |
| a. Use f    | a. Use frames such that page is divided into 3 frames 20% on left to show contents of pages,  |  |  |  |  |  |  |

|  | n center to show body of page, remaining on right to show remarks.<br>d Audio and Video into your HTML web page.  |
|--|---|
|  | HTML  |
| <ul> <li>b. Apply<br/>underl</li> <li>c. Created</li> <li>d. Insert</li> </ul> | e a webpage with HTML describing your department use paragraph and list tags.<br>various colors to suitably distinguish keywords, also apply font styling like italics,<br>line and two other fonts to words you find appropriate, also use header tags.<br>e links on the words e.g. Wi-Fi and LAN to link them to Wikipedia pages.<br>an image and create a link such that clicking on image takes user to other page.<br>ge the background color of the page; At the bottom create a link to take user to the top<br>page. |
| Week-5   | HTML  |
| www.ama  | tatic pages (using only HTML) of an online book store, the pages should resemble:<br>zon.com, the website should consist the following pages, home page, registration and<br>user profile page, books catalog, shopping cart, payment by credit card, order<br>on.  |
| Week-6   | CASCADING STYLE SHEET   |
| selects a co   | ITML page that contains a selection box with a list of 5 countries, when the user ountry, its capital should be printed next to the list; Add CSS to customize the of the font of the capital (color, bold and font size).  |
| Week-7   | JAVASCRIPT  |
| b. Write   | a java script program to test the first character of a string is uppercase or not.<br>a pattern that matches e-mail addresses.<br>a java script function to print an integer with commas as thousands separators.   |
| Week-8   | JAVASCRIPT  |
| b. Write   | a java script program to sort a list of elements using quick sort.<br>a java script for loop that will iterate from 0 to 15 for each iteration, it will check if<br>rrent number is odd or even, and display a message to the screen.   |
| Week-9   | JAVASCRIPT  |
| then the then the                          | a java script program which compute, the average marks of the following students<br>his average is used to determine the corresponding grade.<br>a java script program to sum the multiple s of 3 and 5 under 1000.<br>sign the scientific calculator and make event for each button using java script.   |
| Week-10  | PHP   |
|  | ple calculator web application that takes two numbers and an operator $(+,, *and \%)$ an HTML page and returns the result page with the operation performed on the nds.   |
| b. Ŵrite   | PHP program how to send mail using PHP.   |
| Week-11  | PHP   |
|  | PHP program to convert a string, lower to upper case and upper case to lower case or l case.  |
| b. Write<br>c. Write   | PHP program to change image automatically using switch case.<br>PHP program to calculate current age without using any pre-define function.<br>PHP program to upload image to the server using html and PHP.  |

Week-12 PHP

- a. Write PHP program to upload registration form into database.
- b. Write PHP program to display the registration form from the database.

Week-13 PHP

- a. Write PHP program to update the registration form present in database.
- b. Write PHP program to delete the registration form from database.
