ATTAINMENT OF COURSE OUTCOME – ACTION TAKEN REPORT

Name of the faculty:	**E. Sunil Reddy**	Department:	**IT**
Regulation:	**IARE - R16**	Batch:	**2016 - 2020**
Course Name:	**Software Process And Project Management**	Course Code:	**AIT512**
Semester:	**VIII**	Target Value:	**60% (1.8)**

Attainment of COs:

	Course Outcome	Direct attainment	Indirect attainment	Overall attainment	Observation
CO1	Recall The concepts of software development life cycle, unified process and its phases to be used for development life cycle processes.	3	2.7	2.9	Attainment target reached
CO2	Summarize the specific functional requirements and quality attributes of requirements management in quality attribute workshop.	2.3	2.7	2.4	Attainment target reached
CO3	Memorize different types of estimation techniques, work break down structure, macro and micro plans in development of the projects.	0.9	2.7	1.3	Attainment target is not yet reached.
CO4	Explain different configuration control and quality assurance techniques to be configured for quality management of the system.	2.3	2.7	2.4	Attainment target reached
CO5	Demonstrate different naming conventions, version control for test data in test cases into bug tracking for configuration and quality management.	2.3	2.7	2.4	Attainment target reached
CO6	Apply the relationship between elements, process modeling and process definition techniques for process assessment and improvement.	2.3	2.7	2.4	Attainment target reached

Action taken report: (To be filled by the concerned faculty / course coordinator)

CO 3: Need to provide more problems and also additional digital resources which enables the students to gainmore problem-solving skills.

Course Coordinator   **Mentor**   **HOD**
