About Placement and Training Center

The Institute of Aeronautical Engineering (IARE), Hyderabad, has been dedicated to the holistic development of its students since its inception. With the core philosophy of "Invent and Innovate in Technologies" IARE has been imparting comprehensive education in science and technology through its unique and flexible fractal curriculum.

To ensure the 360-degree development of its students, the placement office has undergone a significant transformation and now operates as the Office of Placement & Training. This office provides career guidance to all students and facilitates excellent internship and placement opportunities. IARE invites global industry and academic partners to collaborate, aiming to contribute positively to society.

The Placement and Training center committed to ensuring the proper placement of students. It advises students on career options and provides up-to-date information on training and employment opportunities. The department focuses on offering guidance and counseling and bringing students and potential employers together to achieve optimal placements, considering market conditions. It serves the interests of both students and employers by providing the necessary platform for successful interactions.

Vision

IARE was established to enhance students' capabilities and instill a sense of responsibility in them, enabling them to contribute to the synchronous development of technological trends in the market. The Training and Placement Cell organizes and coordinates various programs to shape students to meet industry expectations in their careers, thereby bringing prestige to the institution.

Mission

To become a leading technical institution with a forward-looking vision, dedicated to developing students into exemplary engineers with solid technical and scientific expertise, enriched by global experience and integration

Objective
s

- Organize campus recruitment drives for final-year students with reputable companies.
- Facilitate companies in recruiting candidates according to their requirements.
- Raise awareness among students about various career options.
- Enhance students' employability by providing training in aptitude and soft skills.
- Assist students in securing summer training and internship programs.
- Bridge the gap between industry and academia through:
- Seminars, guest lectures, conferences, corporate meets, and industrial visits.
- Coordination with various departments to impart industry-relevant skills.

Placement and Training Centre Activities

The Placement and Training (PAT) Center is your one-stop center for everything career-related! Get help finding and applying for jobs, career guidance, resume reviews, interview preparation and more services to help you achieve your career goals.

Mentoring session by Industry Experts

Mentoring sessions conducted by industry experts provide valuable insights and guidance to students, helping them understand industry needs, trends, and professional expectations. The key aspects and benefits of such mentoring sessions are Industry Insights, Career Guidance, Real-World Experience, Motivation and Inspiration, Understanding Industry Culture, Portfolio and Project Advice

Resume Review

Resume review services provide students with the chance to have their resumes assessed by professionals. This comprehensive review covers academic credentials, skills and technologies, internships, projects, certifications, and other crucial elements. The objective is to ensure that resumes showcase a well-rounded set of technical skills and experiences

Top up courses

Top-up courses can be seen as an extended version of bootcamps. They often delve into more advanced topics in programming languages and cover specialized areas that go beyond the basics. These courses are beneficial for students who have already completed foundational training and are looking to deepen their knowledge and expertise. By focusing on advanced topics, top-up courses help students prepare for the technical challenges they might face during campus placements and in their future careers.

Company specific training

Company-specific training is often provided to students to help them prepare for the recruitment processes of particular companies. This type of training focuses on understanding the exam patterns, types of questions, and interview processes specific to those companies. The key aspects and benefits of such training are Understanding Exam Patterns, Familiarization with Question Types, Interview Preparation and Mock Assessments

Boot Camps

Boot Camps offer intensive, focused training on specific programming languages and tools within a relatively short period. This allows students to quickly gain practical skills and knowledge that can be applied directly to real-world projects. The key aspects and benefits of boot camps for students are Focused Learning, Practical, Hands-On Experience, Industry-Relevant Skills, Problem-Solving Techniques

Darpan

Conducting a SWOT analysis (Strengths, Weaknesses, Opportunities, Threats) for students can be an effective way to help them understand their personal and professional attributes and create actionable plans to achieve their career goals.
By conducting a SWOT analysis(Strengths, Weaknesses, Opportunities, Threat), students can gain a clear understanding of their internal strengths and weaknesses, as well as external opportunities and threats, enabling them to make informed decisions and strategic plans to achieve their career goals.

Placement Policy

The placement policy provides clear guidelines to students on the entire process, from registering for participation in campus placements to attending placement drives and securing job offers

PAT Registration

The students who wish to participate in placement drives needs to register at the PAT center before the specified deadline. No late entries will be entertained under any circumstances. Only the students with a minimum CGPA of 6.5 with no active backlogs by the end of the fifth semester are allowed to register for PAT.

Pre-Placement Training

PAT provide necessary pre-placement training for all the registered candidates which includes technical training, hackathons, assessments through coding platforms, mock interviews and mentoring sessions by industry experts

Campus Recruitment Drives

All the PAT registered students are allowed to participate in campus recruitment drives. Once a job notification is released, students who wish to participate in the drive are required to register through online portal.

Dream Offer

The PAT center will provide opportunities to all its registered students to secure one job at the first instance, and pursues a policy of "students can apply for the dream job if any organization offering the salary of 100% more than first job with a package of 10 LPA and below". In addition, students are allowed to secure any number of jobs for a package of 10 LPA and above

Placement Process

The Placement and Training (PAT) Center manages communication between recruiters and students, starting from inviting companies for recruitment to supporting students throughout the placement process until job offers are finalized.

Invitation

Placement office sends invitation to companies along with institute information. Companies interested in recruitment will notify to placement and training office.

Registration

Placement office share job description and eligibility criteria to all the PAT registered students. Interested students will register for participation in recruitment and database will be communicated to the recruiters.

Pre-Placement Talk

Companies interested in recruitment can conduct pre-placement talks either online or offline. Pre-Placement Talks provide a platform to facilitate interaction between students and companies, so that both are able to find the best match according to their aspirations and requirements.

Recruitment Process

Firstly, companies can conduct assessments for screening candidates and shortlist the candidates for either Group Discussion rounds or Personal Interview rounds depending on the organization's recruitment policy. We welcome all the recruiters to conduct the process in hybrid mode (In-Person or online).
Job Offer

Once the final interview round is conducted, the company makes a final offer to the candidate. The offer should include the details such as job role, compensation package and other terms and conditions required by the candidate to make further decision. Post receiving the provisional offer letter, the student accepts the same
