# INSTITUTE OF AERONAUTICAL ENGINEERING

(Autonomous)

Dundigal, Hyderabad - 500 043, Telangana

#### FULL SEMESTER INTERNSHIP POLICY

At Institute of Aeronautical Engineering, internship is undergone as a part of the programme where students can select it as full semester internship (FSI) programme. In FSI, the student must spend one full semester in an identified industry, R&D organization or another academic institution / University and has to carry out the internship as per the guidelines of that industry or institute. The FSI work shall be innovative in nature and explore the research bent of the mind of the student.

FSI will be assessed for 100 marks, the Continuous Internal Assessment (CIA) shall be for 30 marks and the Semester End Examination (SEE) shall be for remaining 70 marks based on paper publication, report, presentation, execution, and viva-voce.

### Guidelines and Academic credentials required to apply for FSI

- FSI has to be carried out individually.
- A student who secures a minimum CGPA of 7.5 up to IV semester with no current backlogs and maintains the CGPA of 7.5 till VI semester shall be eligible to opt for FSI.
- Out of the selected students, half of students shall undergo FSI in VII semester and the remaining students in VIII semester.
- Eligible students shall submit the application to the Principal, forwarded by the head of the department in the VI semester. Supervisors are allotted to these students based on their area of specialization.
- FSI shall be open to all the branches and students can choose either National FSI or International FSI.
- In National FSI, students may choose either to work on innovation or entrepreneurial activities resulting in start-up or undergo internship with industry/ NGO's/ Government organizations/ Micro/Small/ Medium enterprises to make themselves ready for the industry.
- Students can also avail any one of the nine research centres of college, IARE-Technology Innovation and Incubation Centre (TIIC) centre and Science and Technology Start-Up Park (STSP) centres to carry out their FSI.
- In International FSI, the student can select any of the 9 premiere universities in 6 countries with which the institute has signed MoUs for various collaborative activities.
- Student has to submit Attendance Report / Internship Diary/ Certificate from organization from where the FSI was undergone.
- Research paper related to the work done is to be published in any Scopus/SCI Indexed Journal and/or fill an intellectual property (IPR-patent/copyright).
- A project report has to be submitted at the end of the FSI.
- The project reports shall go through the plagiarism check and the plagiarism index has to be less than 20%.
- Project reports with plagiarism more than 20% and less than 60% shall be asked for resubmission within a stipulated period of six months. Project report with plagiarism more than 60% shall be rejected.
- FSI will be evaluated for 100 marks and a minimum of 40% of maximum marks shall be obtained to earn the corresponding credits.

• The final viva-voce exam is conducted by a committee comprising the Head of the department, project supervisor and an external examiner nominated by the Principal.

### **Objectives:**

### The FSI will expose students:

- To enhance and expand the knowledge of a particular area.
- To explore career alternatives prior to graduation.
- To develop employer-valued skills such as teamwork and communications.
- To extend students an opportunity to study at internationally renowned partner institutions.
- To gain an in-depth exposure to a different study environment.
- To prepare the students to adapt to and excel in a global work environment.
- To help them to understand different cultures, work styles and mindsets

#### **COURSE OUTCOMES**

### By the end of the FSI, students can show competence in the following areas:

- CO 1: Ability to plan and implement an investigative or developmental project given general objectives and guidelines.
- CO 2: In-depth skill to use some laboratory, modern tools and techniques.
- CO 3: Ability to analyze data to produce useful information and to draw conclusions by systematic deduction.
- CO 4: Facilitate significant individualized interactions between faculty members and students through a multi-term research experience.
- CO 5: Ability to communicate results, concepts, analyses, and ideas in written and oral form.
- CO 6: Conduct an extended independent investigation that results in the production of a research thesis.

#### **PROGRAM OUTCOMES**

A graduate of the Engineering Program will demonstrate:

- **PO1:** Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences
- PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **PO5:** Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

- **PO6:** The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **PO8:** Ethics: Apply ethical principles and commit to professional ethics and responsibilities and normsof the engineering practice.
- **PO9:** Individual and teamwork: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **PO12:** Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

## CO - PO Mapping

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1	2	3	3	3							3	3
CO2				2	3							3
CO3	2	3	3	3	3	2	2					3
CO4								3	3			3
CO5										3		3
CO6			·	3		2						3
	2	3	3	2.75	3	2	2	3	3	3	3	3

#### **EVALUATION / ASSESSMENT GUIDELINES:**

Students are evaluated based on their work progress. Therefore, students are expected to meet their respective supervisors regularly to present their progress. In addition, students are required to maintain their logbooks accordingly. Only students with satisfactory progress are allowed to submit their technical paper publication and project report. Students also are required to present their complete project work in the form of well-structured report.

The motive is to enhance students' writing skill and it is popularly considered as the ultimate task in **B.Tech program.** Both work progress and project report will be monitored by the project supervisor. As a summarization, the assessment consists of four major sections as depicted in Table 1.

Section Description	Marks
Continuous Internal Assessment (CIA)	30
Semester End Examination (SEE)	
Technical Paper Evaluation (TPE)	30
Project Presentation Evaluation (PPE)	20
• Final Report Evaluation (FRE)	20

# CONTINUOUS INTERNAL ASSESSMENT (CIA)

The Continuous Internal Assessment (CIA) shall be for 30 marks and done by a Department Review Committee (DRC) comprising the supervisor, project coordinator, Head of the department and two senior professors. Three reviews of CIA are conducted for 30 marks and the final CIA marks will be the average of the three assessments.

Each assessment of the PRC should follow the evaluation guidelines and rubrics as mentioned in Table 2, and Table 3.

Table 2. CO - PO Specifications for CIA

S. No	Specification	CO	РО	Maximum Marks
1	<b>Attendance:</b> Ability to frequently meet with supervisor	CO4	PO8, PO9, PO12	5
2	<b>Creativity:</b> Ability to gather information and resources for the given problem	CO1	PO1, PO2, PO3, PO4, PO11, PO12	5
3	Work progress: Ability to use and record any work progress in a logbook for a given timeline	CO2,	PO4, PO5, PO12 PO10, PO12	10
4	Demonstration and finding of results: Abilityto demonstrate and analyze results with appropriate reasonable explanation	CO3,	PO1 to PO7, PO12 PO4, PO6, PO12	10
			Total	30

**Table 3. Rubrics Evaluation form for CIA** 

S. No	Specification	Very Weak	Weak	Moderate	Strong	Very Strong
		1	2	3	4	5
1	Attendance	Meet less	Meet more	Meet more	Meet more	Meet more than 10
		than 3	than 3 times	than 5 times	than 9 times	times per semester
		times per	per semester	per semester	per semester	
		semester	but less than 5	but less than	but less than	
			times	7 times	10 times	
2	Creativity	Too	Dependent	Independent,	Independent	Highly independent,
		Dependent	but show	show	and creative	creative and can
		and not	some	some		work with minimum
		creative	creativity	creativity		supervision
3	Work progress	No	No logbook	Logbook	Logbook	Logbook
		logbook	with poor	maintained	maintained	maintained with
		and no	progress	with poor	with good	advanced progress
		progress		progress	progress	
4	Demonstration	No	Only results	Results	Results	Results
	and finding of	element	are	demonstrated	demonstrated	demonstrated and
	results	met	demonstrated	and analyzed	and analyzed	analyzed critically
				critically,	critically with	with accurate
				but no	inaccurate	explanation of
				explanation	explanation of	results
				of results	results	

#### **SEMESTER END EXAMINATION (SEE)**

The Semester End Examination (SEE) is for remaining 70 marks based on publication, report, presentation, execution and viva-voce done by a Project Review Committee (PRC) comprising the supervisor, project coordinator, Head of the department, Dean (UG & PG), Dean (R&D) and an examiner nominated by the Principal from the panel of experts recommended by Chairman, BOS.

### **Technical Paper Evaluation (TPE)**

The evaluation and assessment will be done at the end of the semester during SEE as per the evaluation guidelines and rubrics as mentioned in Table 4, and Table 5. The assessment is for 100 Marks and the marks obtained will then be relatively rounded for a maximum of 30.

Table 4. CO – PO Specifications for TPE

S. No	Specification	CO	РО	Maximum Marks
1	Abstract: Objective(s), Scope of Study, Methodology & Findings	CO1	PO1, PO2, PO3, PO4, PO11, PO12	10
2	Introduction: Overview of Study, Problem Statement, Problem Identification, Significance of the Study, Objective and Scope of Study	CO4	PO8, PO9, PO12	20
3	Methodology: Algorithm, flow charts or pseudo codes of the programming codes OR/AND, hardware design, block diagram, appropriate circuitry and relevant techniques towards achieving the project outcomes	CO2,	PO4, PO5, PO12	30
4	<b>Results and Discussion:</b> Exhibit the significant results of the project, Discus and analyze the results of the project	CO3	PO1 to PO7, PO12,	20
5	Conclusion: Students should be able to conclude the findings in addressing the objective of the project & Recommendation for future work	CO6	PO4, PO6, PO12	10
6	Format: Written according to format	CO5	PO10, PO12	10
		<u>'</u>	Total	100

Table 5. Rubrics Evaluation form for TPE

S.No	Specification	Very Weak	Weak	Moderate	Strong	Very Strong
	_	1	2	3	4	5
1	Abstract	Not clearly	Only 1 element	Only 2	Only 3	All elements
		stated	clearly stated	elements	elements	clearly stated
				clearly stated	clearly stated	
2	Introduction	Not clearly	Only 1 element	Only 2	Only 3	All elements
		stated	clearly stated	elements	elements	clearly stated
				clearly stated	clearly stated	
3	Methodology	Only 1 element	Only 1 element	All elements	All elements	All elements
		fulfilled but	fulfilled and	fulfilled but	fulfilled but 1	fulfilled and
		not clearly	clearly stated	not clearly	element not	clearly stated
		stated		stated	clearly stated	
4	Results and	Results do not	Results are	Results are	Results are	Results are
	Discussion	meet project's	available	available with	available with	available with
		objective	without	wrong analysis	correct	correct
					analysis and	

			analysis and discussion	and without discussion	without discussion	analysis and discussion
5	Conclusion	No conclusion on the achievement of project objectives, No recommendati on of future work	Only 1 element fulfilled but not clearly stated	All element fulfilled but not clearly stated	All element fulfilled but only 1 element clearly stated	All element fulfilled and clearly stated
6	Format	Wrong Paper structure and wrong format	Wrong paper structure but partially wrong format	Correct paper structure with more than 2 wrong formatting elements	Correct paper structure with less than or equal to 2 formatting elements	Correct paper and Correct Format

# **Project Presentation Evaluation (PPE)**

The evaluation and assessment will be done at the end of the semester during SEE as per the evaluation guidelines and rubrics as mentioned in Table 6, and Table 7. The assessment is for 100 Marks and the marks obtained will then be relatively rounded for a maximum of 20 marks.

Table 6. CO – PO Specifications for PPE

S. No	Specification	CO	PO	Maximum Marks
1	<b>Engagement:</b> Appearance, gesture, voice & eye contact	CO4	PO8, PO9, PO12, PSO3	20
2	Presentation Skills: Suitable Tone of Voice, Fluent English usage, Effective Use of Presentation Aids, Convincing	CO5	PO10, PO12, PSO2, PSO3	30
3	Content: The presentation slides should consist the followings: Introduction, Methodology / Project work, Results and Discussion, Conclusion and Recommendation	CO3, CO6	PO1 to PO7, PO12, PSO1, PSO2 PO4, PO6, PO12, PSO1, PSO2, PSO3	20
4	Question and Answers: Ability to answer questions convincingly.	CO5	PO10, PO12, PSO2, PSO3	30
			Total	100

**Table 7. Rubrics Evaluation form for PPE** 

S.No	Specification	Very Weak	Weak	Moderate	Strong	Very Strong
		1	2	3	4	5
1	Engagement	Not dressed	Not dressed	Dressed	dressed	dressed
		formally, no facial expression or eye contact	formally, satisfactory facial expression and eye contact	formally, no facial expression and eye contact	formally, regular facial expression and eye contact	formally, consistent facial expression /eye contact
2	Presentation Skills	No element is fulfilled	Only 1 element is fulfilled	Only 2 elements are fulfilled	Only 3 elements are fulfilled	All elements are fulfilled
3	Content	No element is fulfilled	Only 1 element is fulfilled	Only 2 elements are fulfilled	Only 3 elements are fulfilled	All elements are fulfilled

4	Questions and	No Answers	Answers not	Answers	Answers	Good
	Answers		related to	related to	related to	expression of
			questions	questions	questions	ideas, very
				with poor	with good	convincing
				points	points	

# **Final Report Evaluation (FRE)**

The evaluation and assessment will be done at the end of the semester during SEE as per the evaluation guidelines and rubrics as mentioned in Table 8, and Table 9. The assessment is for 100 Marks and the marks obtained will then be relatively rounded for a maximum of 20 marks.

Table 8. CO – PO Specifications for FRE

S. No	Specification	CO	PO	Maximum Marks
1	Abstract: Students should be able to briefly summarize what has been done, and also demonstrate the findings of the project	CO1	PO1, PO2, PO3, PO4, PO11, PO12, PSO1	10
2	Introduction: Background of Study, Problem Statement, Problem Identification, Significance of the study, Objective, Scope of Work & Thesis Organization	CO4	PO8, PO9, PO12, PSO3	10
3	Literature Review: Students should be able to review the references within the scope of study & Students should also be able to perform analysis on previous works	CO3	PO1 to PO7, PO12, PSO1, PSO2	10
4	Methodology/Project Work: Student should include the algorithm, flow charts or pseudo codes of the programming codes OR/AND; Students should include the hardware design, block diagram, appropriate circuitry and relevant techniques towards achieving the project outcomes	CO2	PO4, PO5, PO12, PSO2, PSO3	30
5	<b>Results and Discussion:</b> Students should exhibit the significant results of the project, Students should be able to discus and analyze the results of the project	CO3	PO1 to PO7, PO12, PSO1, PSO2	20
6	<b>Conclusion:</b> Students should be able to conclude the findings in addressing the objective of the project	CO6	PO4, PO6, PO12, PSO1, PSO2, PSO3	10
7	References: Students should write the references in accordance to the specific format (i.e. IEEE format)	CO5	PO10, PO12, PSO2, PSO3	5
8	Others: Writing Style, Grammar & Compliance to the FYP standard/ guideline	CO5	PO10, PO12, PSO2, PSO3	5
			Total	100

# **Table 9. Rubrics Evaluation form for FRE**

S. No	Specification	Very Weak 1	Weak 2	Moderate 3	Strong 4	Very Strong 5
1	Abstract	Not clearly stated	Only 1 element clearly stated	Only 2 elements clearly stated	Only 3 elements clearly stated	All elements clearly stated
2	Introduction	Not clearly stated	Only 1 element clearly stated	Only 2 elements clearly stated	Only 3 elements clearly stated	All elements clearly stated

3	Literatur eReview	Literature Reviewirrelevant to study	Explain previous studies, but no discussions on pros and cons	Explain previous studies, with insufficient discussions on pros and cons	Explain previous Studies, with good discussions on pros and cons. No explanation of the need of study at the end	Explain previous studies related with good discussions on pros and cons, and finally explain the need of the study
4	Methodology /Proje ct Work	No relevant flowchart or block diagramand there is noprocedures or techniques or experimental setup	No relevant flowchart or block Diagram. The procedures or techniques or experimental setup are not in sequence, illogical, incomplete and unclear	There is relevant flowchart or block diagram and the procedures or techniques or experimental setup are partially in sequence, logical, complete and partially clear	There is relevant flowchart or block diagram and the procedures or techniques or experimental setup are in sequence, logical, complete and partially clear	There is relevant flowchart or block diagram and procedures or techniques or experimental setup are in sequence, logical, complete and very clear
5	Results and Discussion	Results do not meet project'sobjective	Results are available without analysis and discussion	Results are available with wrong analysis and without discussion	Results are available with correct analysis and without discussion	Results are available with correct analysis and discussion
6	Conclusion	No conclusion on the achievement ofproject objectives, No recommendation offuture work	Only 1 element fulfilled but not clearly stated	All element fulfilled but not clearly stated	All element fulfilled but only 1 element clearly stated	All element fulfilled and clearly stated
7	References	All references arein incorrect format	More than 5 references are in incorrect format	More than 3 references and less than or equal to 5 references are in incorrect format	More than 1 references and less than or equal to 3 references are in incorrect format	All references are in correct format
8	Others	Very frequently used wrong choice of words with more than 30 grammatical errors. Wrong citations observed and does not follow the guidelines at all	Very seldom Used wrong choice of words with more than 20 grammatical error but less than or equal to 30 grammatical error. Wrong citations observed and does not follow the guidelines at all	Correctly used choice of words with more than 10 grammatical error but less than or equal to 20 grammatical errors. Correct citations observed and follow the guidelines	Correctly used choice of words and exists good transitions between statements. Has more than 5 grammatical errors but less than or equal to 10 grammatical errors. Correct citations observed and follow the guidelines	Good variation in using choice of words with good transitions and coherence between statements. Has less than 5 grammatical error with proper citations and compliance to guidelines
