# e-ExamDesk – Examination Management Portal

## **Examination Management Portal**

Institution adopts an end-to-end automated process for question paper generation, encoding/decoding, tabulation of marks and declaration of results by using in-house software - eExamDesk.

e-ExamDesk is an online examination system, fully computerized, user friendly with advanced security features making its fair, transparent and standardized. It helps to organize and conduct exams through online mode.

Preparing question papers, conducting exams, evaluating answer scripts and result processing is done through the e-Exam desk. It also provides result processing reports branch wise, course wise, exam wise and student wise. It has the facility to generate question papers automatically.

E-ExamDesk aims to conduct online exams accurately and genuinely. It maintains confidentiality in the process of paper setting, paper evaluation and result announcements. It provides updates of the Scheduling exam time tables, evaluation process, assessments, and result reports. Conducting exams became easier, faster and accurate through e-ExamDesk

### **Features:**

- □ Conducting online exams in virtual environment using Remote Proctor Online Test (RPOT), Comprehensive Examination (CV), Multiple Choice Question Test (MCQT), Definition and Terminology Test (DTT) module.
- Conducting the continuous internal examinations (CIE) and semester end examinations (SEE).
- □ Coding and decoding of answer scripts.
- □ Scanning answer scripts with auto-generated codes.
- Digital evaluations of answer scripts, which make the evaluation process faster, easier and accurate.
- □ Publishing results and are made available in respective student logins (<u>www.samvidha.iare.ac.in</u>).
- □ Issuing certificates such as grade sheets, consolidated statements of grades, provisional certificates and transcripts.

### **Policy:**

- 1. Maintains secrecy, safety and security of all documents related to examinations.
- 2. Honesty and integrity is the basic trait followed by the controller of examinations.
- 3. Evaluation of answer scripts is done confidentially.
- 4. Special care is taken in protecting the question-papers and takes all possible precautionarysteps to ensure that the questions are not leaked out before the examinations.
- 5. Ensures to declare results on time.
- 6. Maintains the entries in the mark-statements correctly, complete and free from any sort offlaw.
- 7. Any violation/unethical behavior of the students are not tolerated and serious action taken immediately.
- 8. Ensures proper correlation between Internal and External marks, through proper auditing

**Exam Desk Login:** Students log in with their login ID and password to take the online tests as displayed in figure 1.

### Figure 11: RPOT

### **Online Exams in Virtual Environment using RPOT Module**

Your exam will run in IARE CMS with RPOT (Remote Proctor Online Test) module. This involves a human supervisor launching and supervising your exam through ZOOM. You will be able to see the supervisor and get in contact at any time using the video streaming and chat option. You will be asked to do a room check which involves you moving your webcam around the room to show the supervisor your space.

Remote proctoring is a two-faced affair – on one side, we have the candidate, and on the other is the supervisor. Seen as a one-to-many relationship, the remote proctor, on average, invigilates 5-10 candidates; distance is not an issue as long as there is a high-speed internet connection.

We provide you the following two options for taking the final exams and you can choose any one of the following:

#### **OPTION -1**

#### Accessories:

Two smart phones with internet connection (recommended 1 Mbps).

#### **To Appear in the Exam:**

As depicted in figure 12, Use of Smartphone to log into the CMS server and view the test is enhanced. Can write the response on an A4-sized piece of paper next to each subjective question, scan it, and upload it. When conducting a virtual examination, links the supervisor using a second Smartphone and Zoom.

### Figure 12: To Appear in the Exam

# **OPTION - 2**

#### Accessories:

- □ One laptop or desktop with webcam, internet connection (recommended 1 Mbps).and Windows operating system.
- One smart phone with internet connection (recommended 1 Mbps).

#### To Appear in the Exam:

Using Laptop/desktop for login and writing the exam, scan and upload answer written on A4 size paper.Using the smart phone to connect to supervisor through ZOOM in virtual examination environment as depicted in Figure 13.

Diamira 1

### Features of RPOT Exam in Virtual Environment (as shown in figure 14)

- □ Monitors of Live Streaming of Candidate View.
- Audio Recording and Video Streaming of the environment around the candidate.
- Live Chat by the Remote Proctor with candidates attempting the online exam.
- □ Proctor has the Facility to Pause/ Resume/ Terminate Remote Exam.
- A detailed audit of the entire examination activity.
- □ Concurrent login prevention.
- □ Facility to upload answers written on A4 paper.
- Responsive and User-Friendly User Interface on Mobile Phone and/or desktop.

### **Figure 14: Features of RPOT**

#### **Question Paper Pattern and Duration for Examinations under RPOT (as shown in figure 15):**

The question paper may consist of two sections.

**Section** – I: Eight Short-Answer type questions carrying 5 marks each, out of which students will be required to answer any FOUR questions of 20 marks in 90 - 100 words and

**Section** – **II:** Five Long- Answer type questions carrying 10 marks each, out of which students will be required to answer only FIVE questions of 50 marks in 200 words.

**Duration of the Exam:** 

- 90 minutes, additional 20 minutes for scan and upload.
- □ Student should login to CMS 30 minutes prior to the start of the exam.

Figure 15: RPOT Question paper

### **RPOT Exam Process:**

Student should login to CMS 30 minutes prior to the start of the exam and follow the sequence given below:

- 1. You must connect to the exam ZOOM meeting at least 25 minutes prior to the start of examination using the Zoom device. The zoom link for each exam you are writing will be sent to you via college email before the exam. This should take 5 minutes, and you still have 20 min to the start of the exam.
- 2. Next Step is Scan your room and desk using a webcam. You MUST be seated at least 6 feet away from the camera (either mobile or laptop) and position your camera as shown in pictures 1-3 so that the proctor has a clear view of the entire set-up. The proctor can instruct you to change your seating if there is anything related to the exam orthat is objectionable.
- 3. Invigilators will check your seating arrangement and your surroundings at the start.
- 4. You have to ensure that the ZOOM set up is active for the entire duration of time of exam.
- 5. You must ensure that you received the proper course question paper with correct regulations.
- 6. Do not write Hall Ticket Number on any page. Page numbers can be written in the middle at top. Write the exam **SECRET CODE / IMAGE** provided by your supervisor / proctor on right top side of each page.

**RPOT Invigilation:** Invigilation process is carried online under the expert team supervision as shown in the figure 16.
