## Feedback Analysis on Career Services Academic Year 2017-18

Figure 1

Figure 1 is representing overall feedback of all 13 ‘Career Services’ surveys of all students for the academic year 2017-2018. The overall average data is showing that 84.66% of students have good satisfaction with the survey. Here, the overall dissatisfaction percentage is more than 15%, and by seeing all individual data of career services we noticed that for better results we can improve some feedback by taking action e.g., providing new viewpoints/thoughts, overall satisfaction of career services, utilization of institute services help to find employment or an internship, institution provides excellent industry experience, institution provides excellent global exposure, student’s rate on their placement experience, student’s placement helps them to clarify their career objectives, satisfaction with the response time and the adequacy of the response while contacting the office during placement.

### Was it easy for you to receive assistance from a Career Services Coordinator

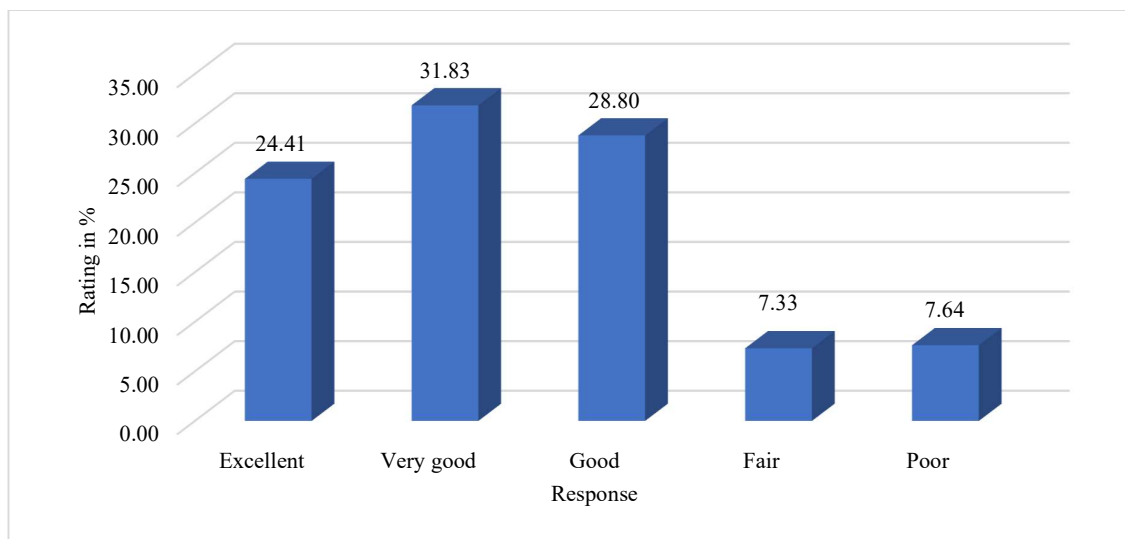

Figure 2

Figure 2 is representing feedback analysis on received assistance from career services coordinator. The data represents that 85.04% students were satisfied while 14.96% students dissatisfied with the easy assistance provided by career service coordinator and only 7.64% students felt that the received assistance was poor. Here, the percentage of dissatisfied students are below 15% so no action taken is required.

**Knowledge of subject(s) discussed by the career services coordinator**

Figure 3

The above bar Figure 3 displays feedback analysis on subject knowledge discussed by the career services coordinator. According to Figure data, 85.35% of students were satisfied and 14.65% of students dissatisfied with subject knowledge discussed by career services coordinator and only 7.32% students said that the knowledge discussed was poor. Since the percentage of dissatisfied students are below 15% so action taken is not required.
