Feedback Analysis on Facilities Academic Year 2019-20

Average

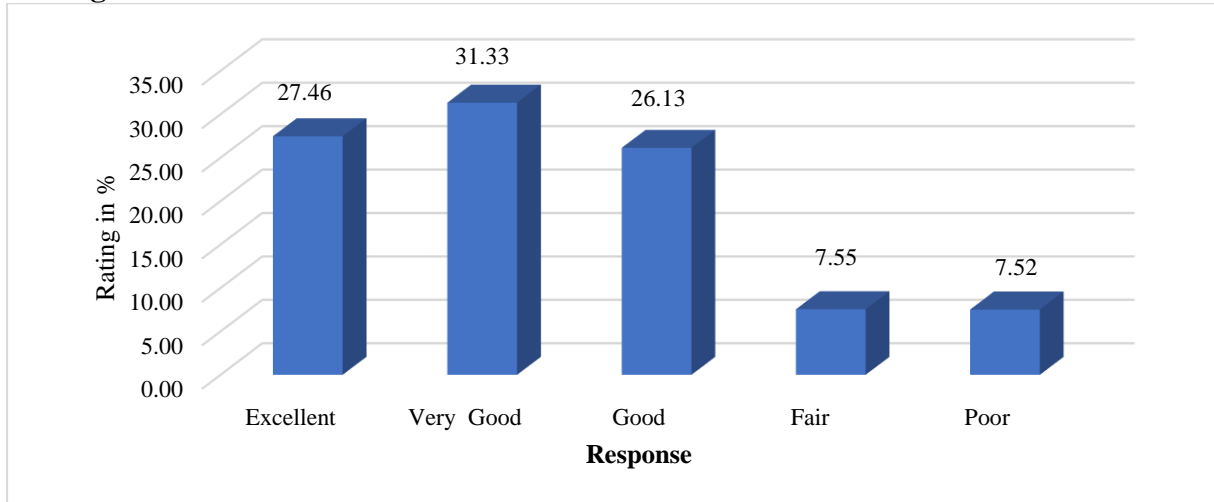

Figure 1

Figure 1 describes the average rating of the questionnaire. From the student's feedback survey of facilities for the academic year 2019-20, it was observed that 84.92 % questionnaire have satisfied whereas 15.08 % questionnaire have dissatisfied. The average dissatisfaction percent are more than 15 %, the student indicated the development needed from the individual questions asked to them under this survey. Response actions are need to be taken for improving the "Helpfulness of the Administrative Office Staff" and "Attitude of the Non-Teaching Staff towards students" in institute. It was also noted that students are dissatisfied with "Internet facilities", "Toilets: Availability and Maintenance", "Hostel facilities", "Sport facilities", "Functioning of NSS", "Cultural Activities", "Extra-Curricular/Student support activities", "Competitions organized", "Functioning of Departmental Associations", "Benefits from Departmental Associations activities", and "Health Care Centre facility". Therefore, it is recommended that institute should improve above mentioned points to satisfy students.

Convenience of College Schedule (Time-Table)

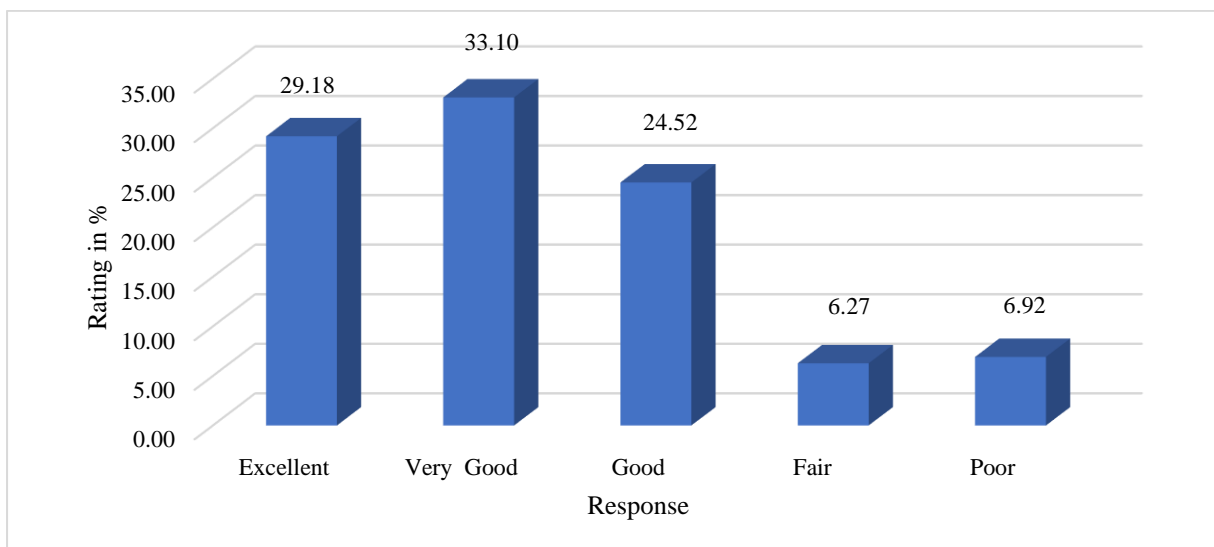

Figure 2

Figure 2 represents the student survey responses of “Convenience of College Schedule”. Based on the feedback survey, it was observed that 86.81 % of students were satisfied with college time table whereas, 13.19 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Helpfulness of the Teaching Staff

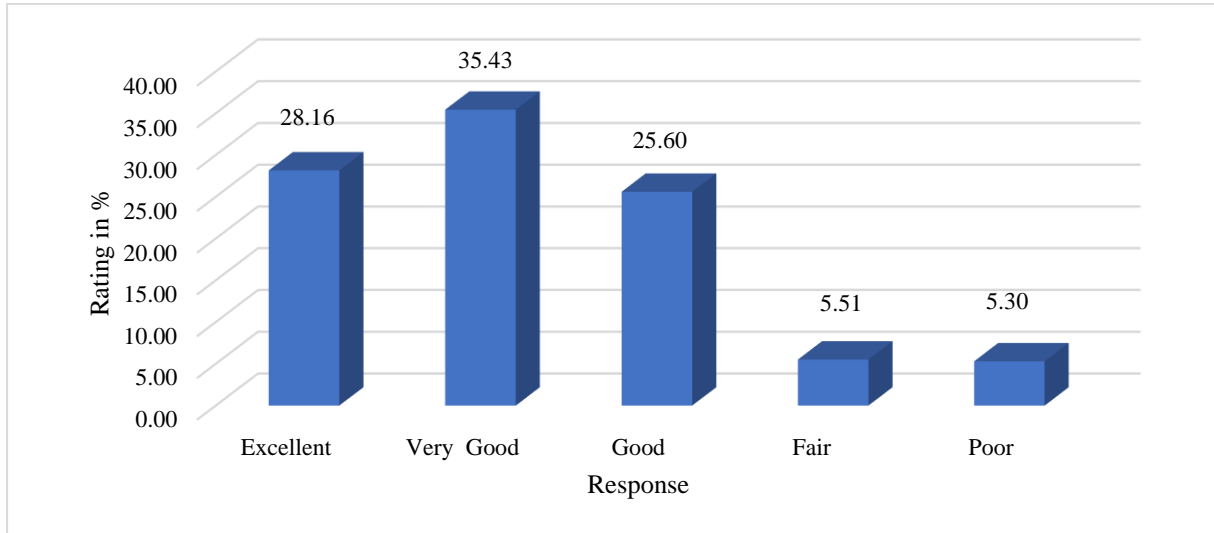

Figure 3

Figure 3 provides the student survey responses of “Helpfulness of the Teaching Staff” in the institute. From the survey, it was noticed that 89.19 % of students feel satisfied with helpfulness of the teaching staff and the remaining 10.81 % of them requesting improvements. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Helpfulness of the Administrative Office staff

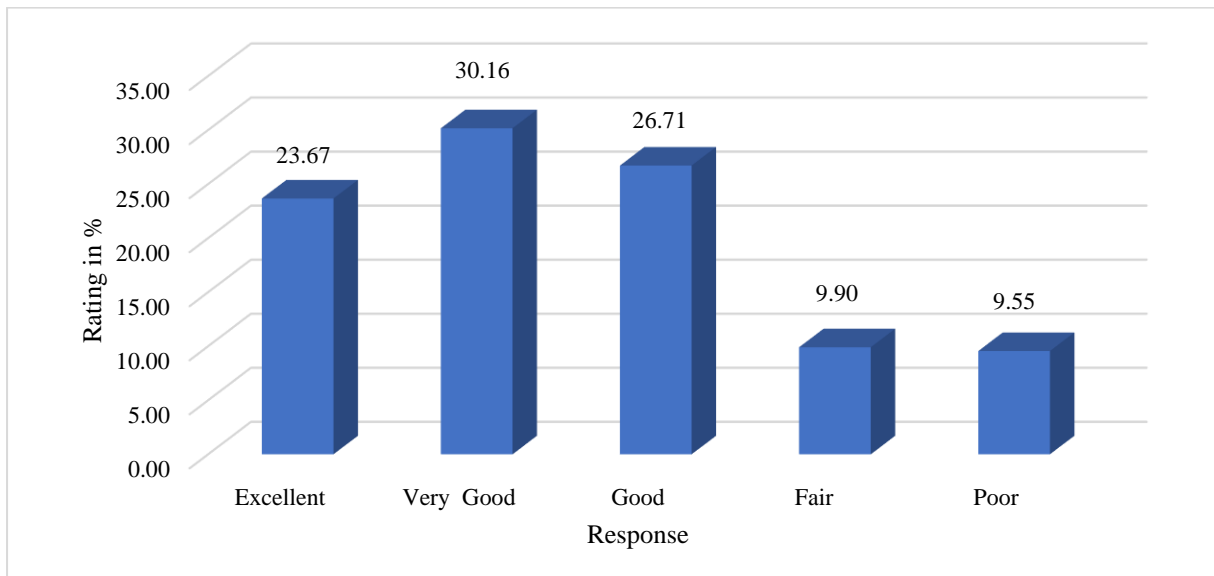

Figure 4

Figure 4 shows the student survey responses of “Helpfulness of the Administrative Office Staff” in the institute. It was found that, 80.54 % of students were satisfied with helpfulness of the administrative office staff in the college and remaining 19.46 % students were dissatisfied. Since above 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Attitude of the Non-Teaching staff towards students

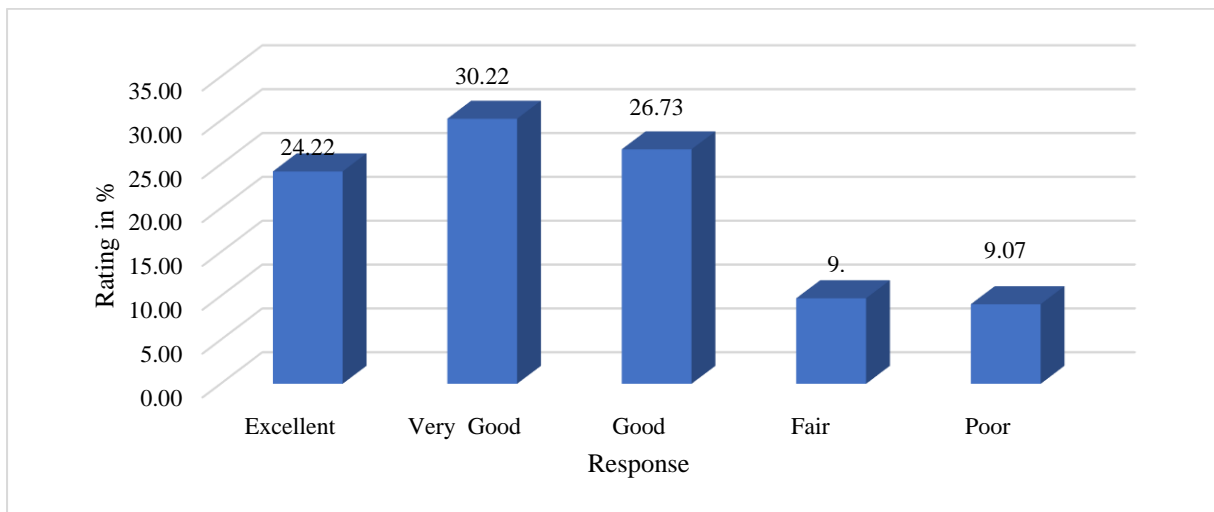

Figure 5

Figure 5 presents the student survey responses of “Attitude of the Non-Teaching Staff towards students” in the institute. Based on the response survey, it was concluded that 81.17 % of students were very much satisfied with attitude of the non-teaching staff towards students and remaining 18.83 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Library Facilities and Services

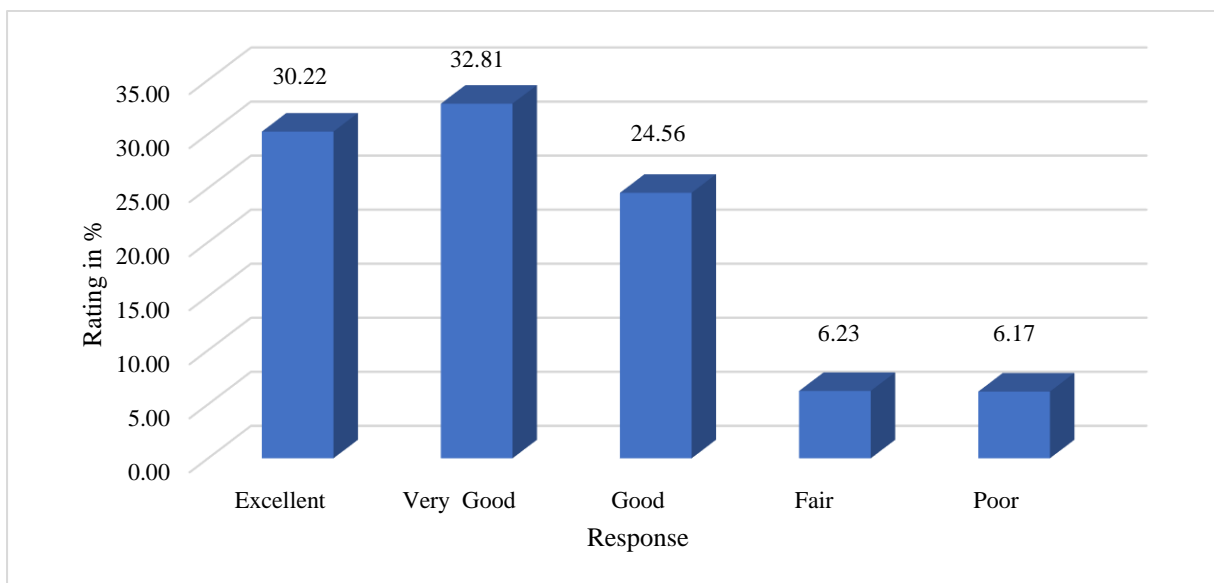

Figure 6

Figure 6 shows the student survey responses of “Library Facilities and Services”. It was noticed that 87.59 % of students were very much satisfied with the library facilities and their services and remaining 12.41 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Laboratory Facilities

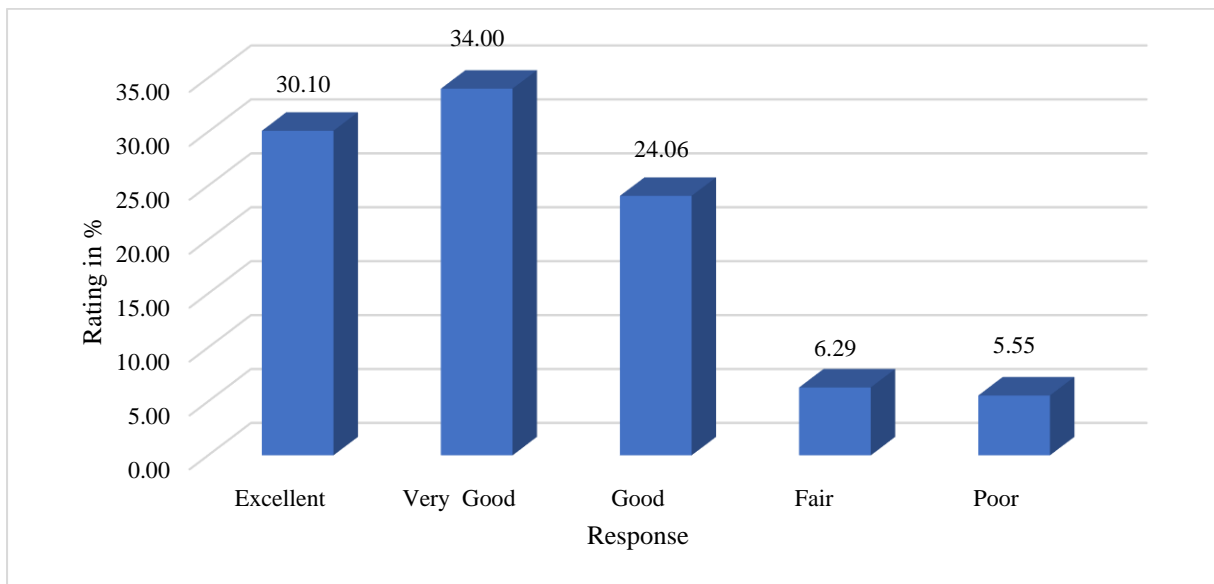

Figure 7

Figure 7 provides the student survey responses of “Laboratory Facilities”. Based on feedback survey, it was observed that 88.15 % of students were very much satisfied with the laboratory facilities. Whereas, remaining 11.85 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Classrooms: Infrastructure

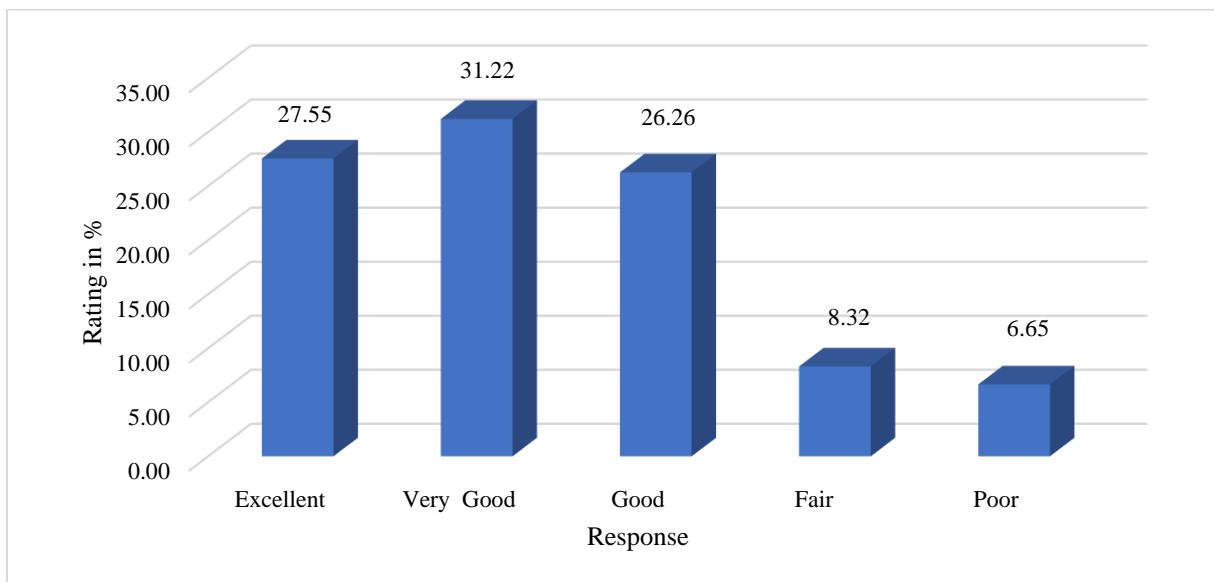

Figure 8

Figure 8 presents the student survey responses of “Classrooms: Infrastructure”. Based on the student’s feedback survey, it was found that 85.03 % of students were very much satisfied with the infrastructure in classrooms in the institute and remaining 14.97 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Classrooms Cleanliness

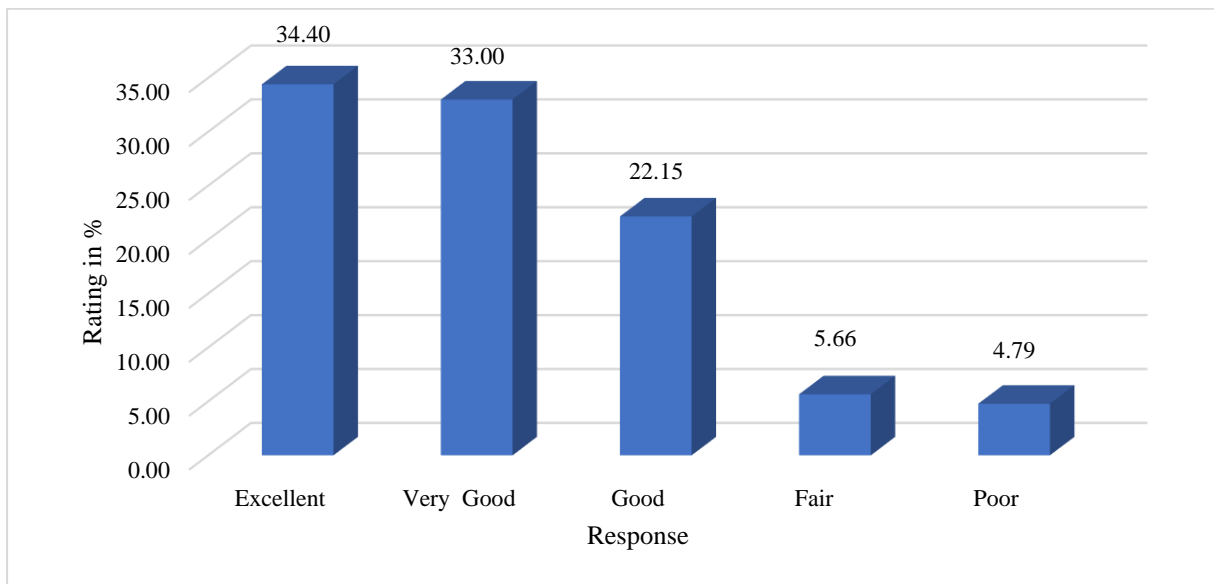

Figure 9

Figure 9 shows the student survey responses of “Classrooms: Cleanliness” in the institute. Based on the feedback survey, it was observed that 89.55 % of students were very much satisfied with the cleanliness in classrooms and remaining 10.45 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Computer facilities

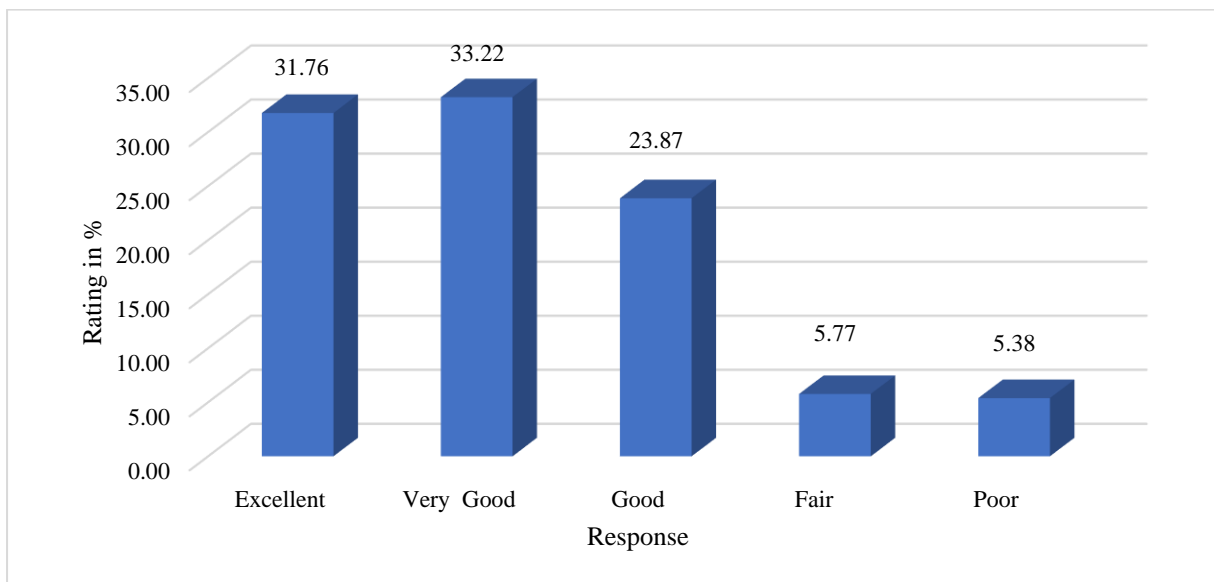

Figure 10

Figure 10 depicts the student survey responses of “Computer facilities”. Based on the survey, it was noticed that 88.85 % of students were very much satisfied with the computer facilities in the institute and remaining 11.15 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Internet facilities

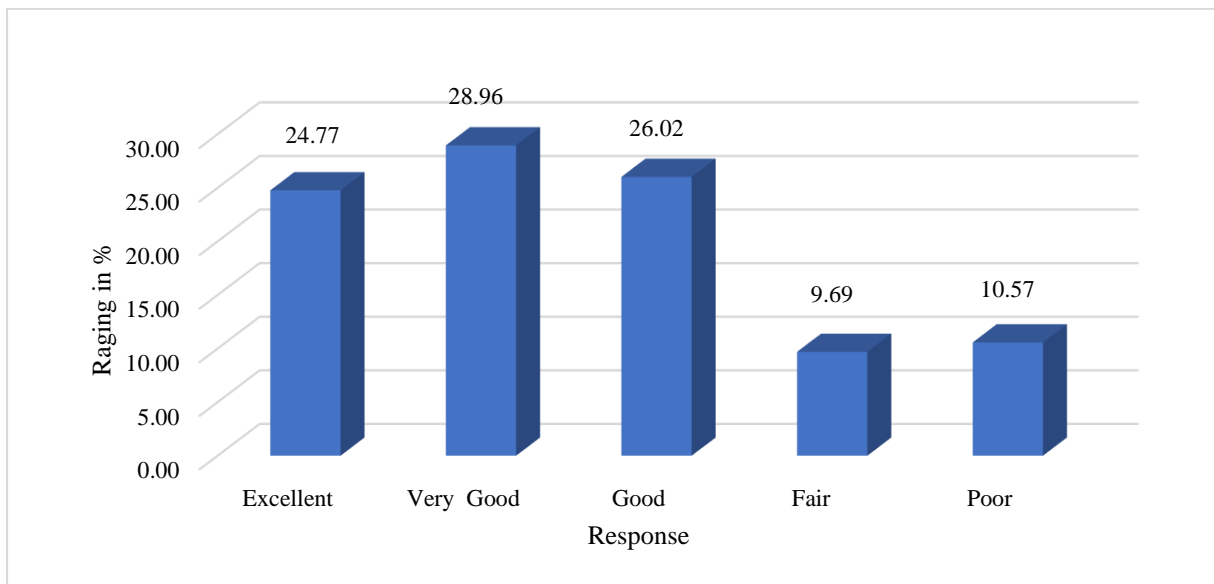

Figure 11

Figure 11 presents the student survey responses of “Internet facilities”. Based on the survey, it was observed that 79.74 % of students were very much satisfied with the internet facility in the college and remaining 20.26 % students were dissatisfied. Since more than 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Cleanliness and Ambiance of Campus

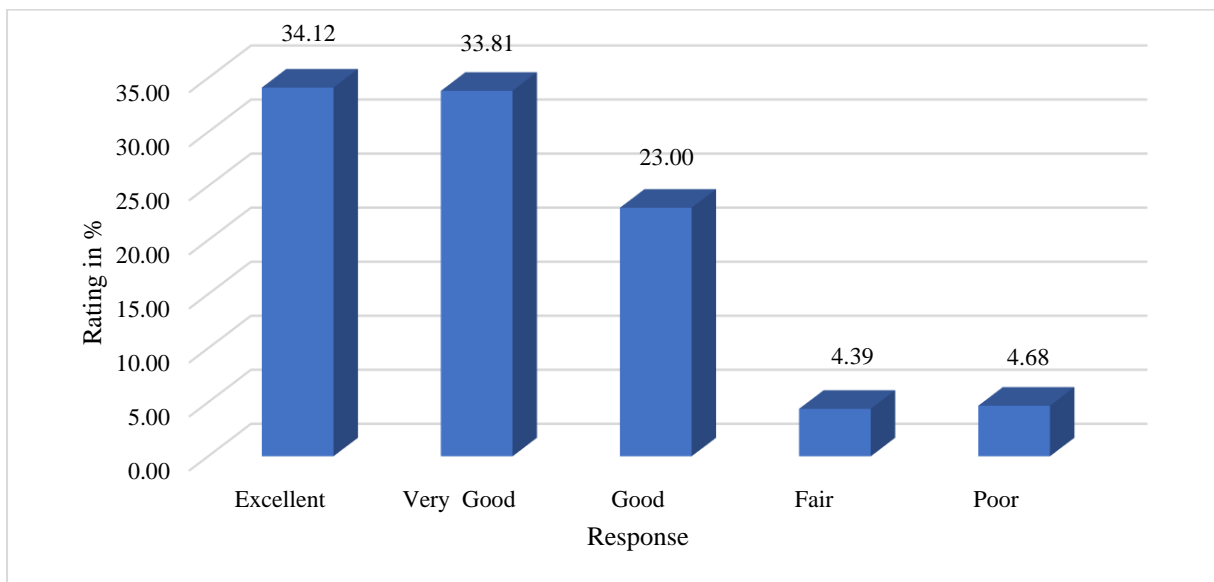

Figure 12

Figure 12 shows the student survey responses of “Cleanliness and Ambiance of Campus”. Based on the survey, it was concluded that 90.93 % of students were very much satisfied with the cleanliness and ambiance of campus and remaining 9.07 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Toilets: Availability and Maintenance

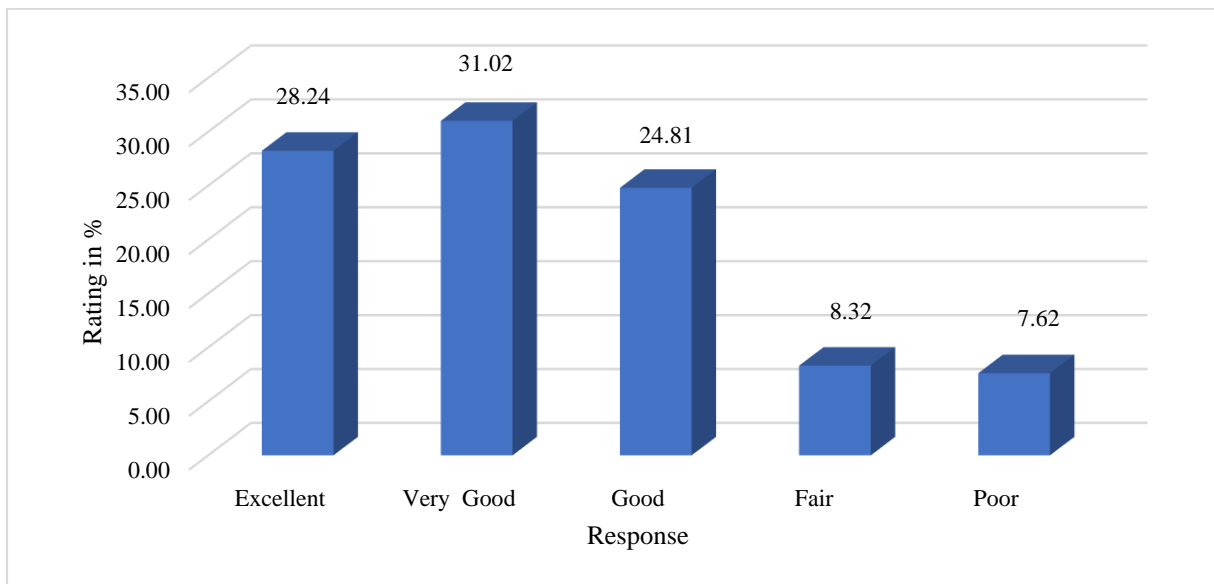

Figure 13

Figure 13 depicts the student survey responses of “Toilets: Availability and Maintenance”. Based on the survey, it was noticed that 84.06 % of students were very much satisfied with the availability and maintenance of toilets in college and remaining 15.94 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Availability of Drinking water

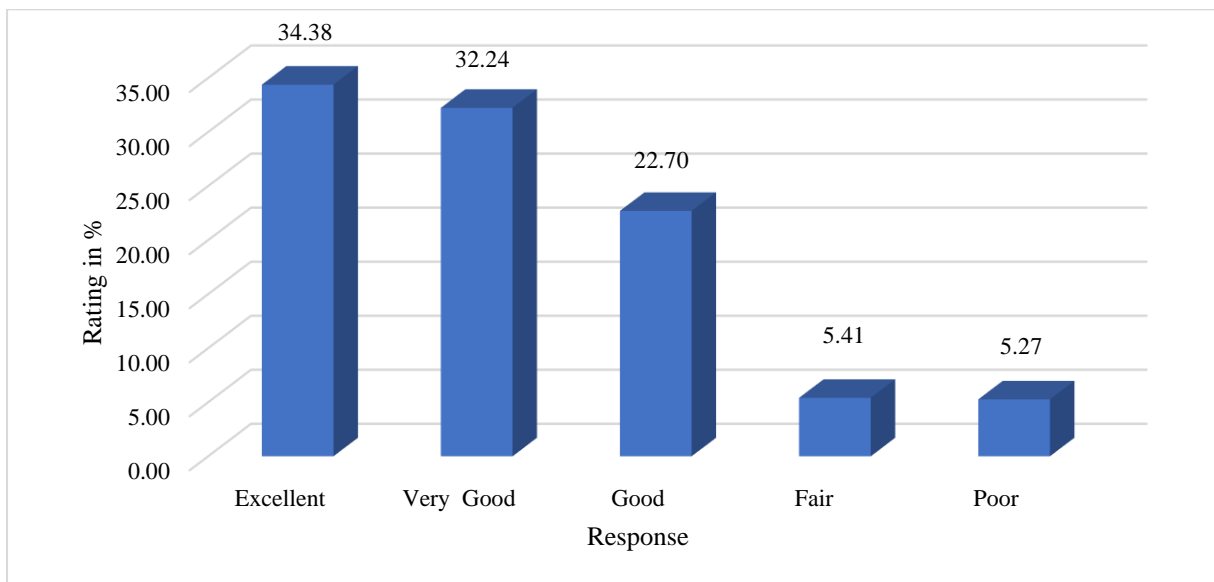

Figure 14

Figure 14 presents the student survey responses of “Availability of Drinking water”. Based on the survey, it was observed that 89.32 % of students were very much satisfied with the availability of drinking water in the institute and remaining 10.68 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Hostel facilities

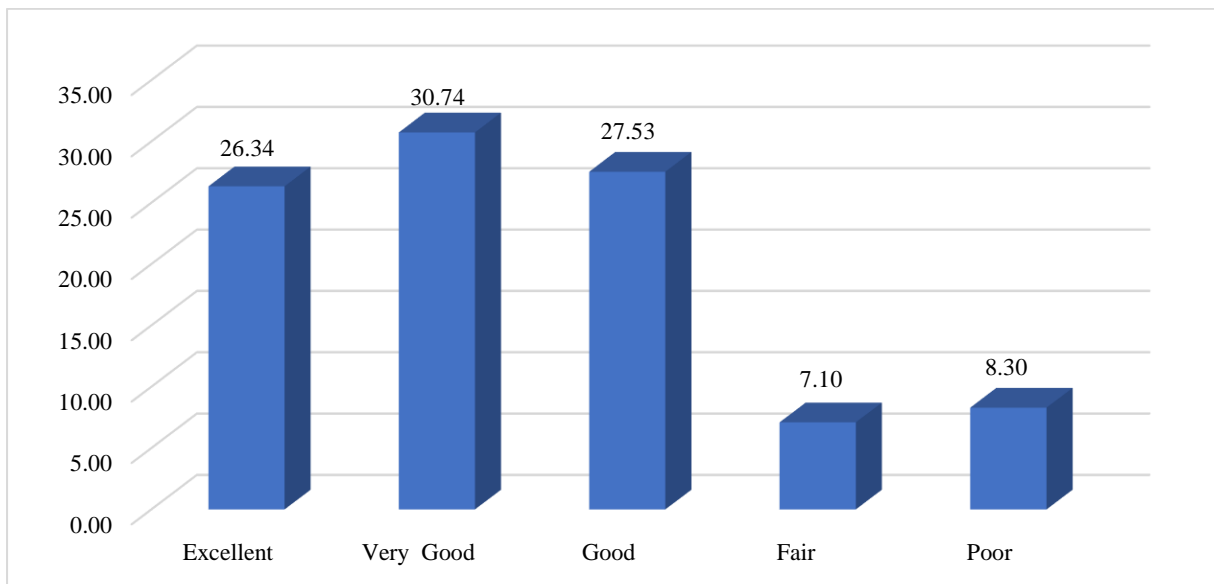

Figure 15

Figure 15 shows the student survey responses of “Hostel facilities”. Based on the survey, it was noticed that 84.61 % of students were very much satisfied with the hostel facilities in the college and remaining 15.39 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Sport facilities

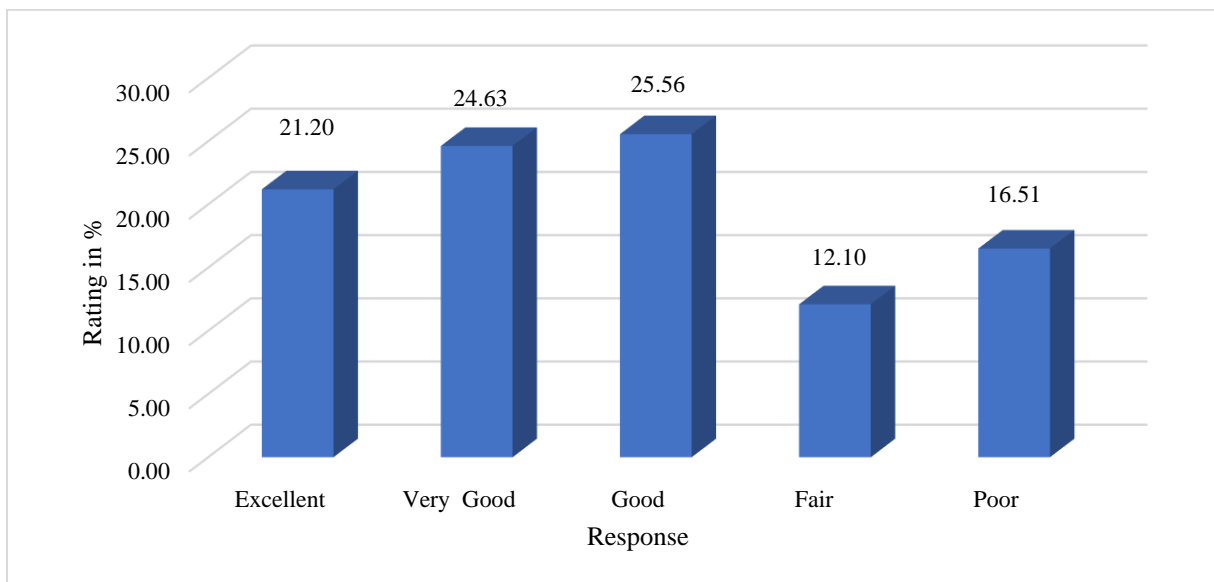

Figure 16

Figure 16 depicts the student survey responses of “Sport facilities”. Based on the survey, it was observed that 71.39 % of students were very much satisfied with the sport facilities in the college. Particularly, remaining 28.61 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Functioning of NSS

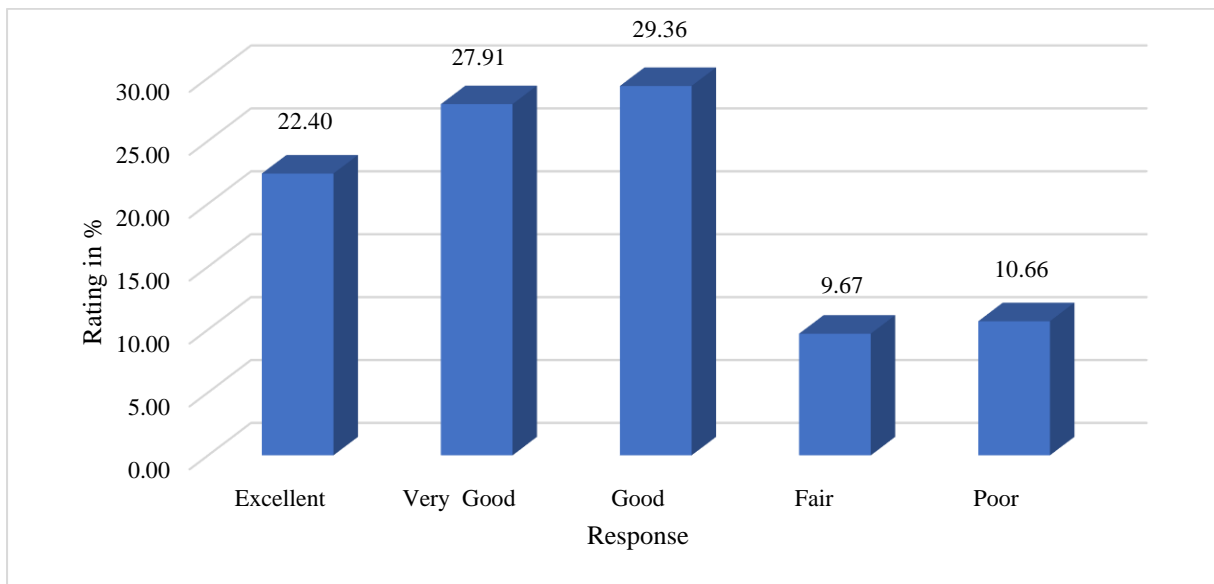

Figure 17

Figure 17 depicts the student survey responses of “Functioning of NSS”. Based on the survey, it was concluded that 79.67 % of students were very much satisfied with the NSS activities in the institute. Notably, remaining 20.33 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Cultural Activities

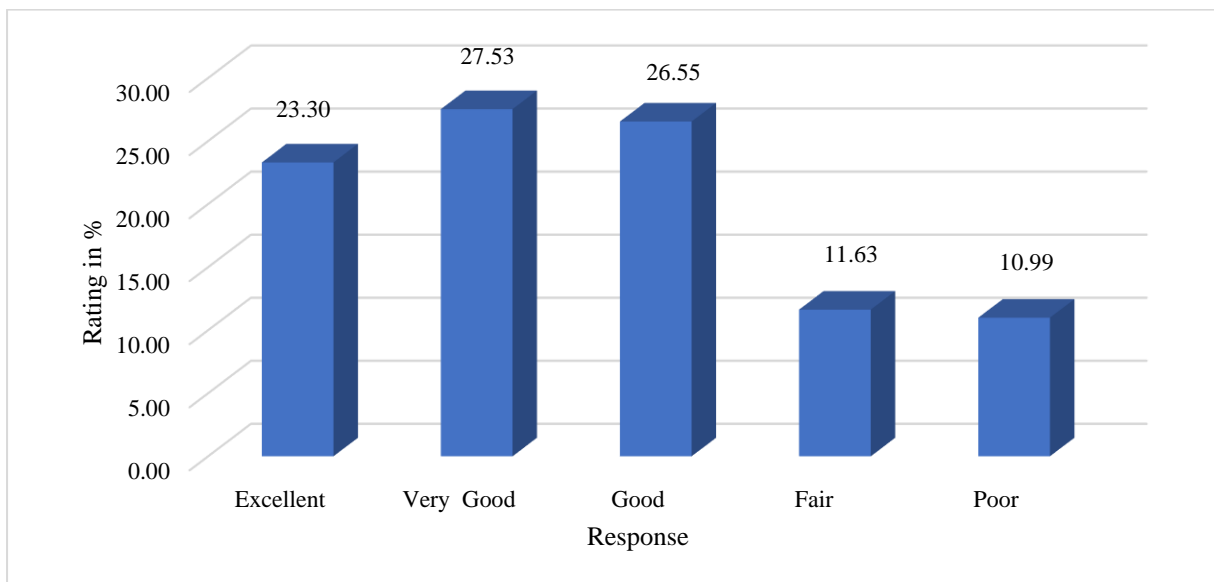

Figure 18

Figure 18 depicts the student survey responses of “Cultural Activities”. Based on the student’s feedback survey, it was found that 77.38 % of students were very much satisfied with the cultural activities in the college. Notably, remaining 22.62 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Extra-Curricular/ Student support activities

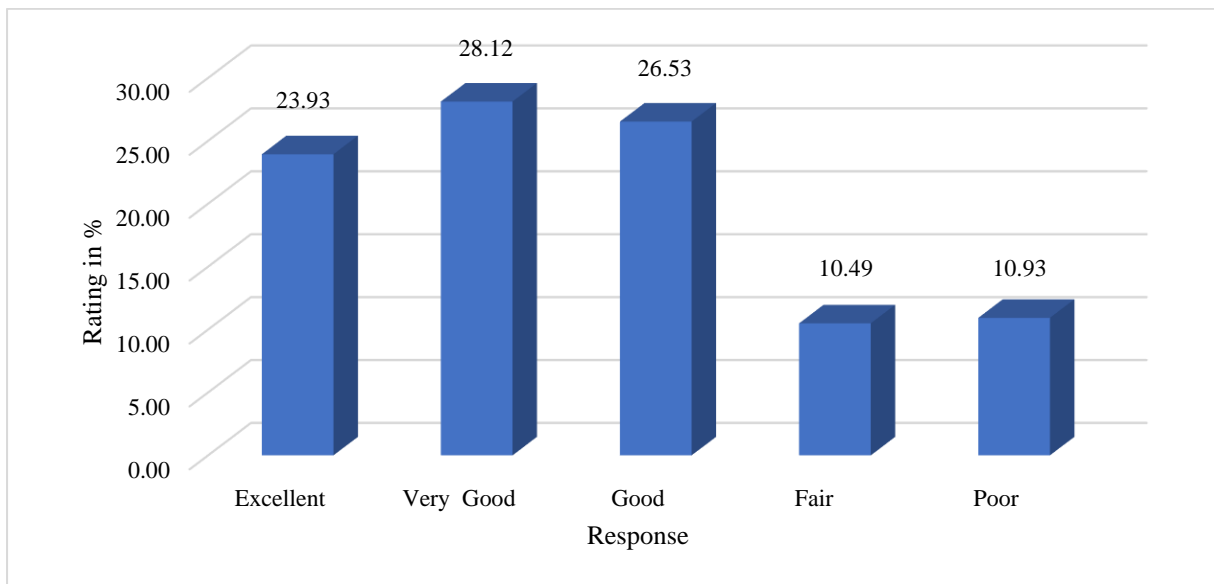

Figure 19

Figure 19 depicts the student survey responses of “Extra-Curricular/Student support activities”. It was observed that 78.58 % of students were satisfied with the extra-curricular/student support activities. Particularly, 21.42 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Competitions organized

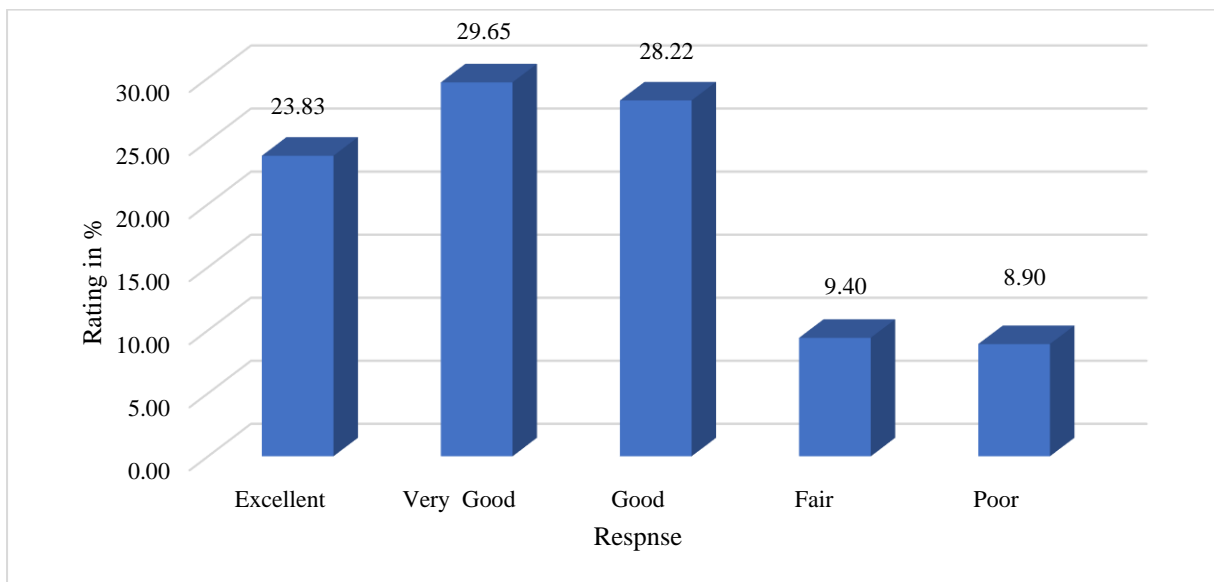

Figure 20

Figure 20 presents the student survey responses of “Competitions organized”. Based on the feedback Survey, it was concluded that 81.71 % of students were very much satisfied with the competitions program activities in college. Whereas remaining 18.29 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Functioning of Departmental Associations

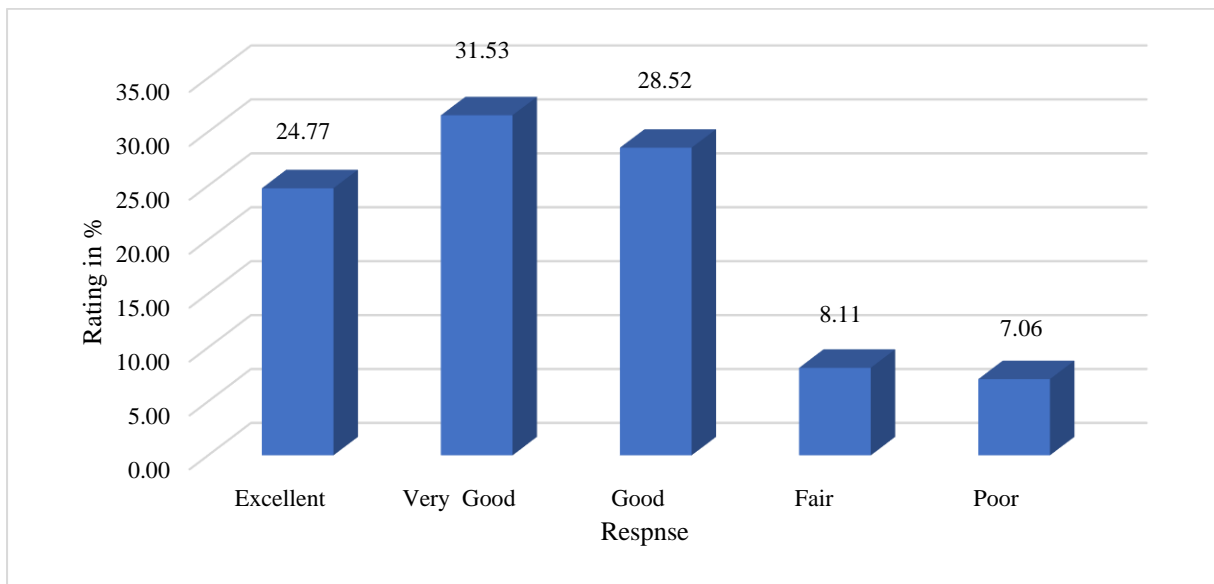

Figure 21

Figure 21 shows the student survey responses of “Functioning of Departmental Associations”. It was observed that 84.82 % of students were satisfied with the functioning of departmental associations and remaining 15.18 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Benefits from Departmental Associations activities

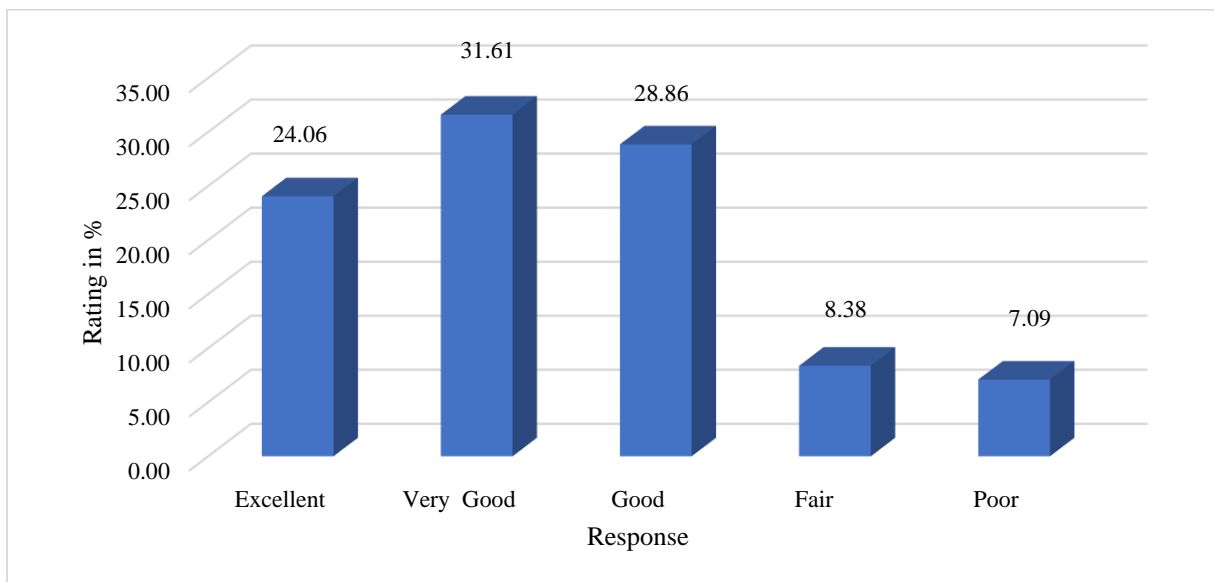

Figure 22

Figure 22 presents the student survey responses of “Benefits from Departmental Associations activities”. Based on the feedback survey, it was found that 84.53 % of students were very much satisfied with the benefits from departmental associations activities. Notably, remaining 15.47 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Functioning of Placement cell

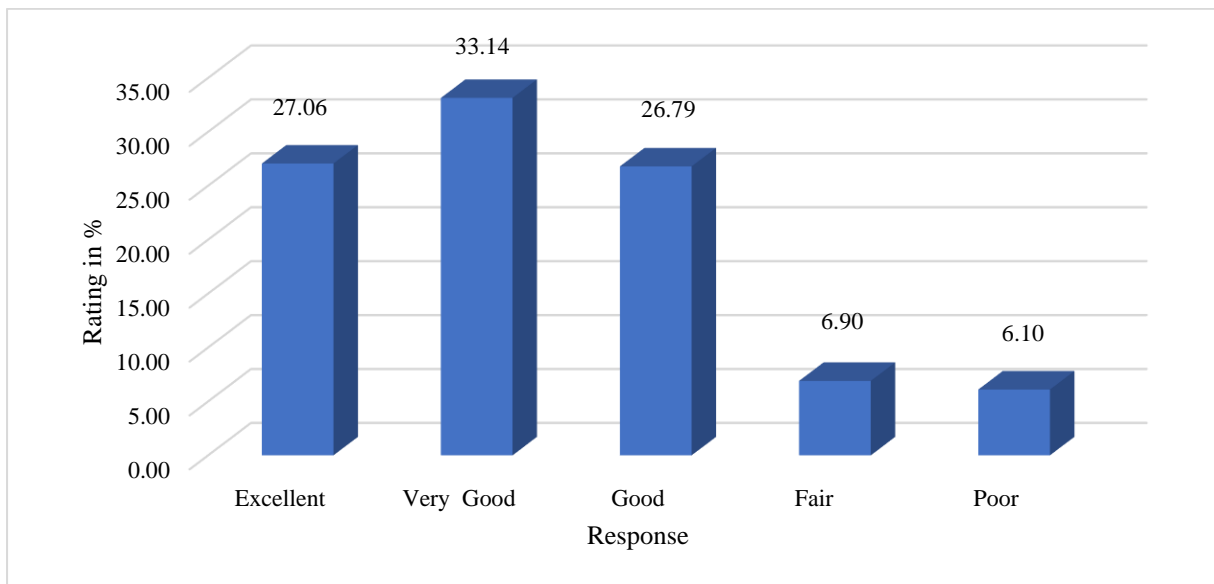

Figure 23

Chart 23 depicts the student survey responses of “Functioning of Placement cell”. It was noticed that 86.99 % of students were very much satisfied with the functioning of placement cell in the institute. Whereas remaining 13.01 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Mechanism to redress the grievances of students

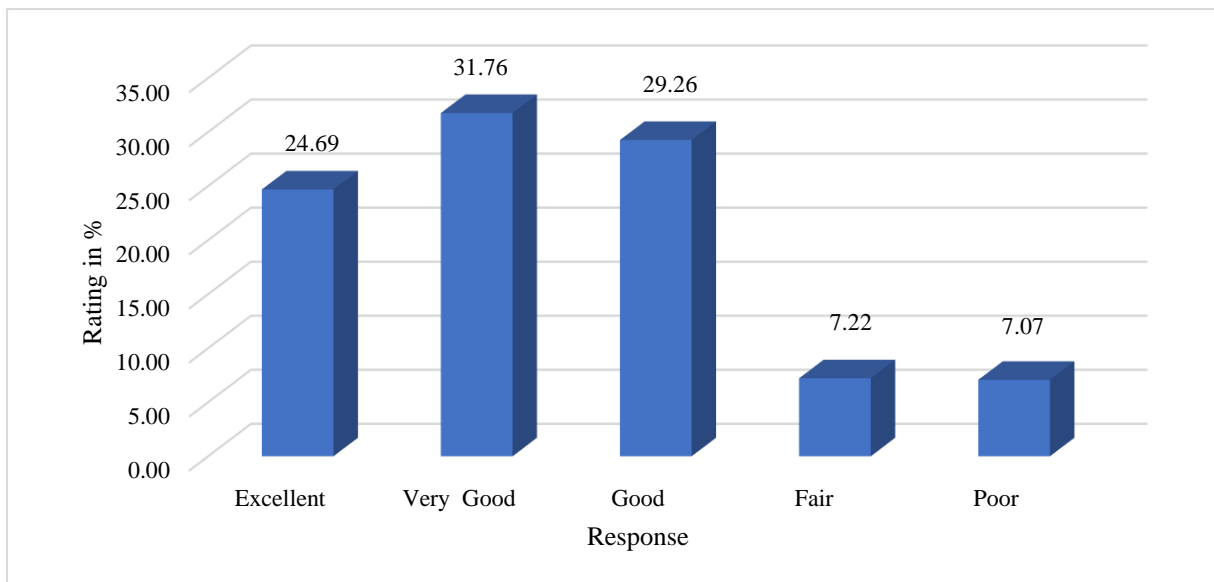

Figure 24

Figure 24 presents the student survey responses of “Mechanism to redress the grievances of students”. Based on the feedback survey, it was observed that 85.71 % of students were satisfied with the mechanism to redress the grievances of students and remaining 14.29 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

The practice of conducting the examinations

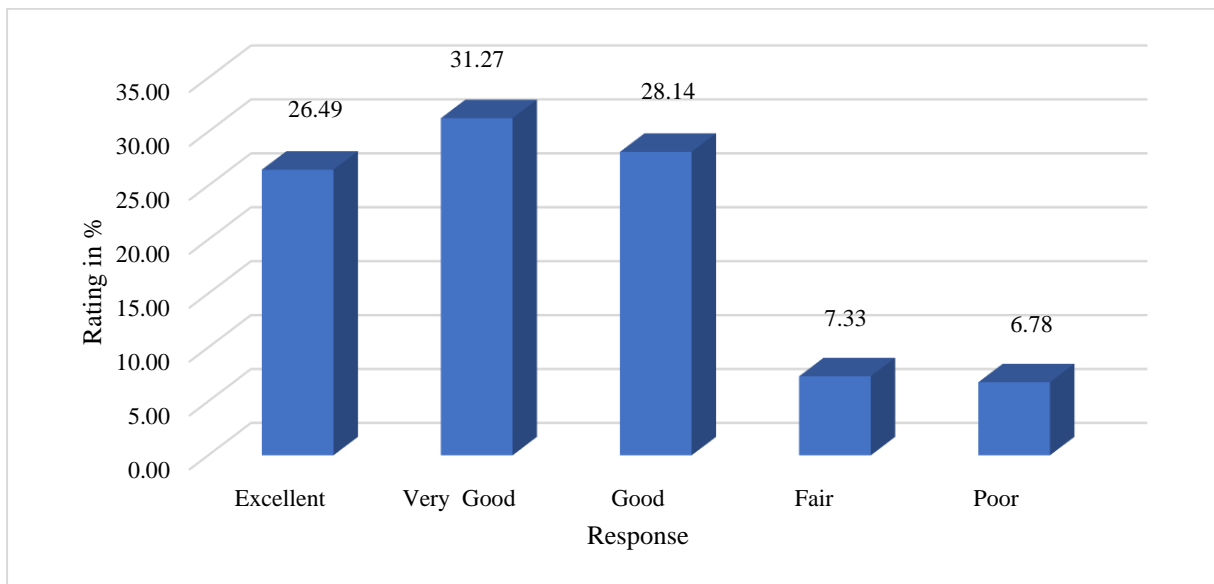

Figure 25

Figure 25 shows the student survey responses of “The practise of conducting the examinations”. Based on the feedback survey, it was concluded that 85.89 % of students were satisfied with the practise of conducting the examinations while remaining 14.11 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Health Care Centre facility

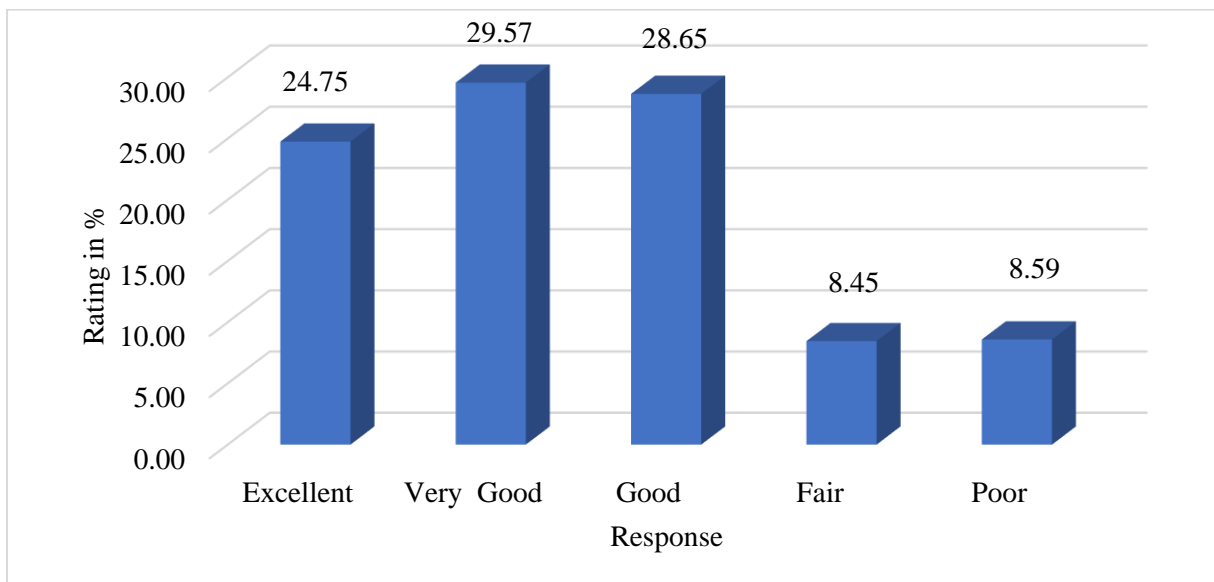

Figure 26

Figure 26 depicts the student survey responses of “Health Care Centre facility”. It was observed that 82.96 % of students were satisfied with the health care centre facility in the college. Notably, remaining 17.04 % students were dissatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Parking facility

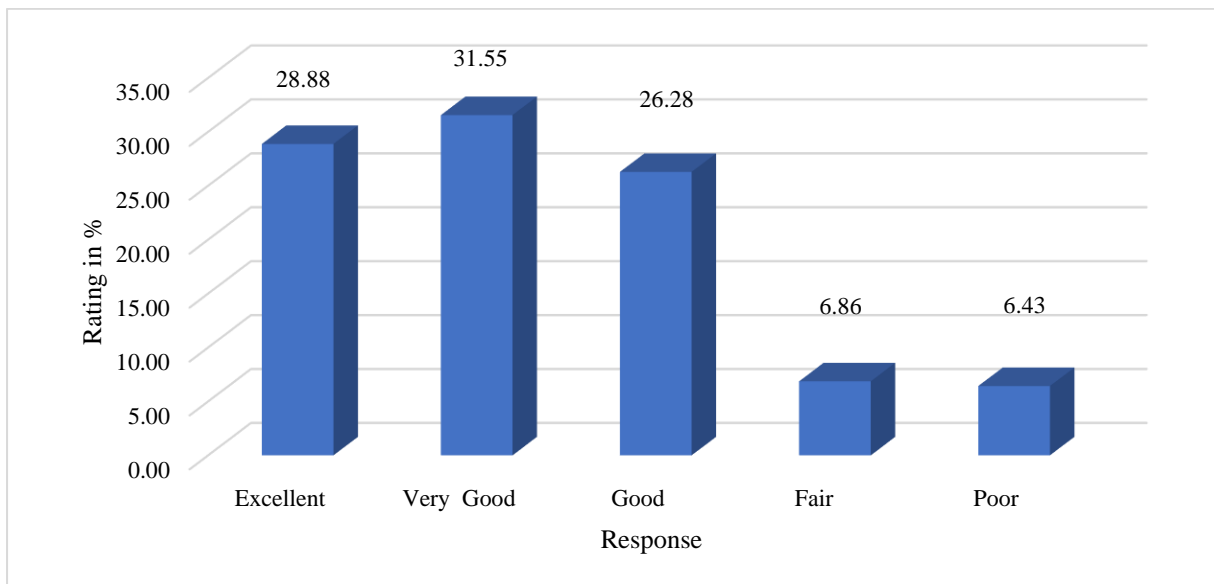

Figure 27

Figure 27 presents the student survey responses of “Parking facility”. Based on the feedback survey, it was concluded that 86.71 % of students were satisfied with the parking facility in the institute. Whereas remaining 13.29 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Canteen facility

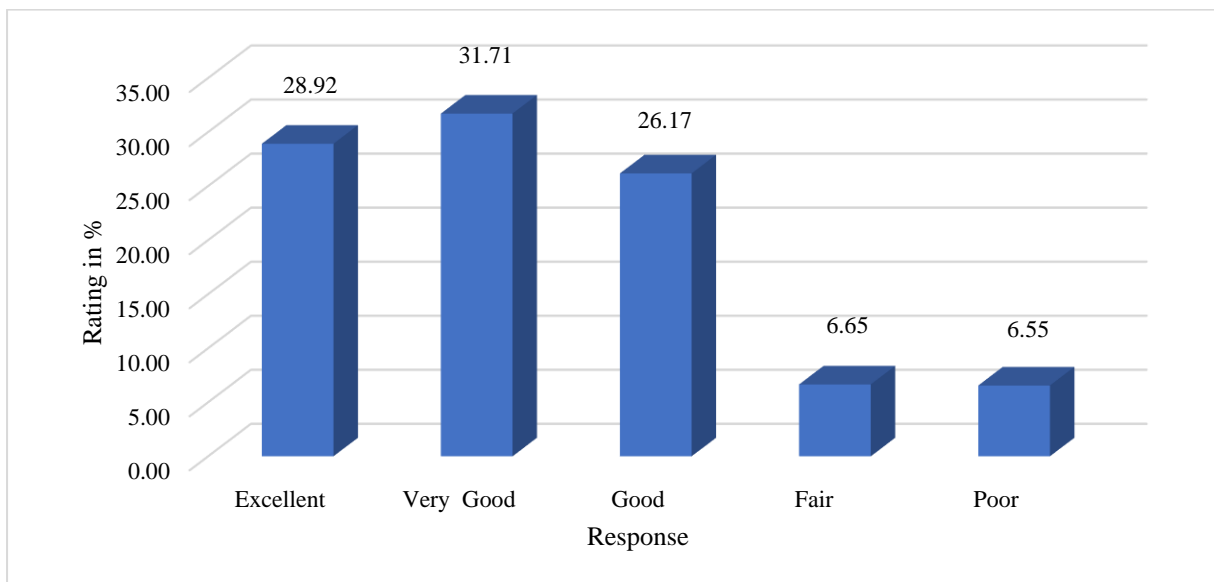

Figure 28

Figure 28 depicts the student survey responses of “Canteen facility”. It was noticed that 86.80 % of students were satisfied with the canteen facility in the college while remaining 13.20 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Counseling facility

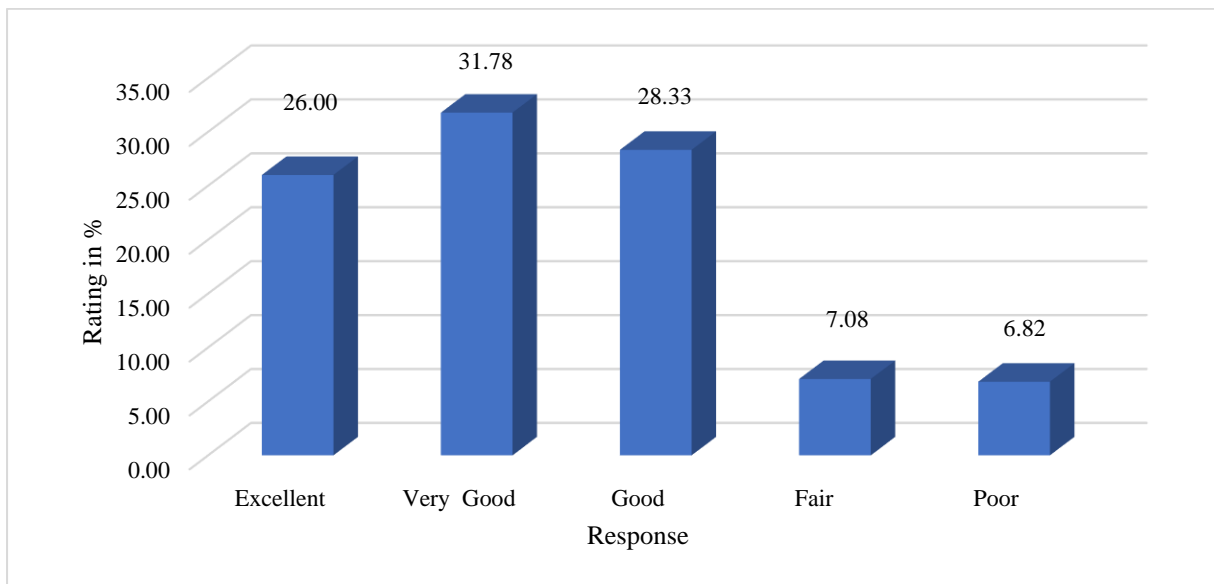

Figure 29

Figure 29 shows the student survey responses of “Counseling facility”. Based on the feedback survey, it was observed that 86.10 % of students were very much satisfied with the counselling facility in the institute while remaining 13.90 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

System of prevention of gender-based harassment

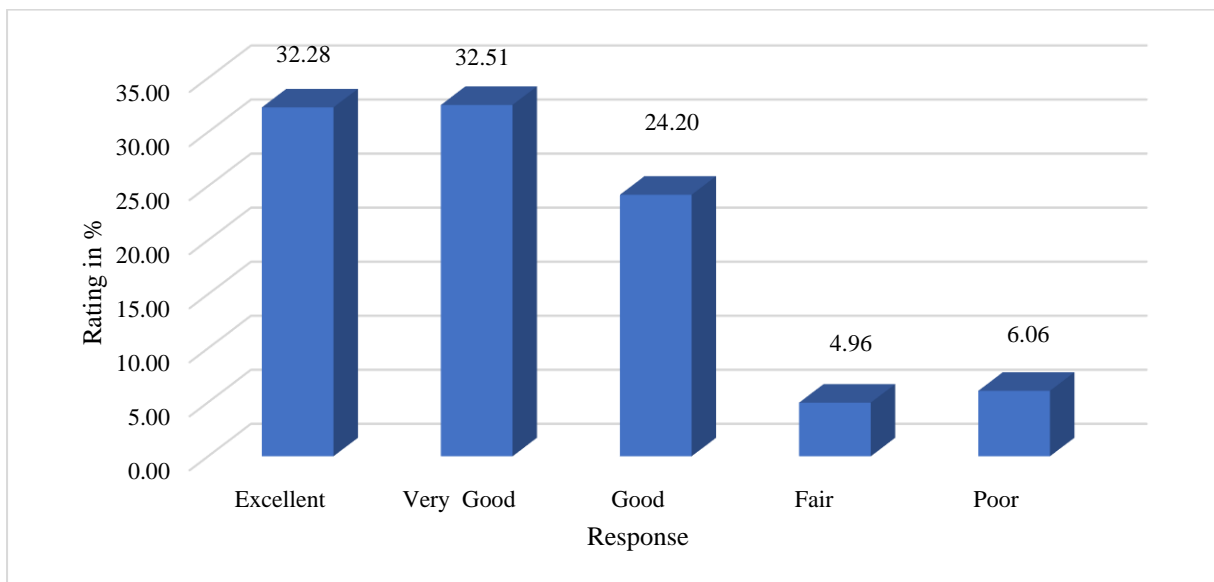

Figure 30

Figure 30 presents the student survey responses of “System of prevention of gender-based harassment” in the institute. It was found that 88.98 % of students were very much satisfied with the system of prevention of gender-based harassment in the institute and remaining 11.02 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Mechanism for preventing ragging

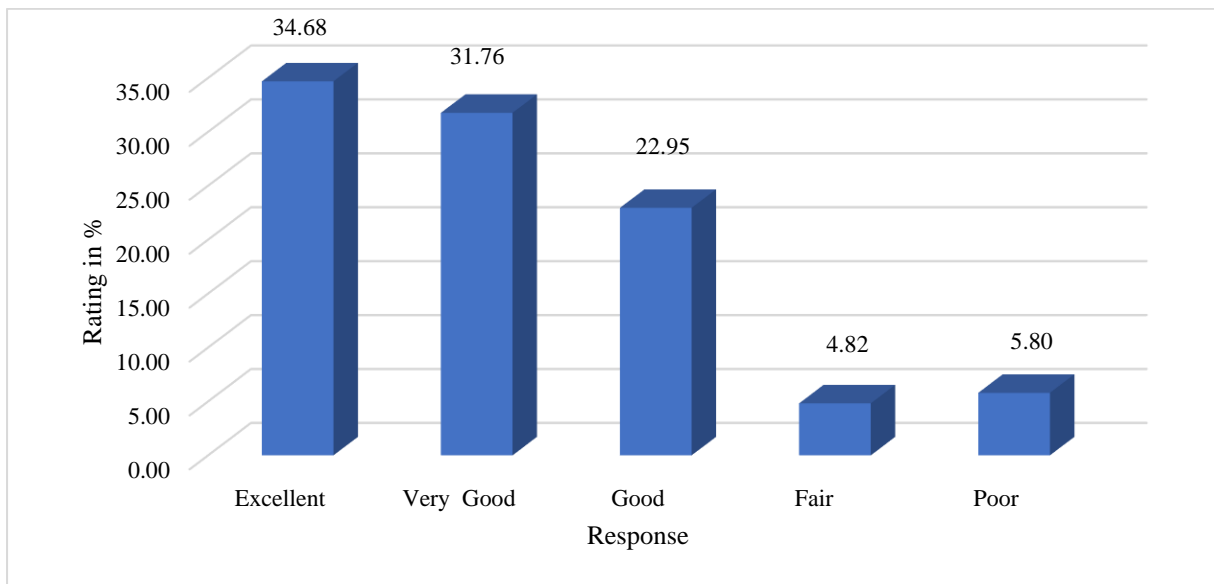

Figure 31

Figure 31 depicts the student survey responses of “Mechanism for preventing ragging” in the institute. Based on the feedback survey, it was noticed that 89.38 % of students were very much satisfied with the mechanism for preventing ragging in the college and remaining 10.62 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Mechanism for preventing ragging

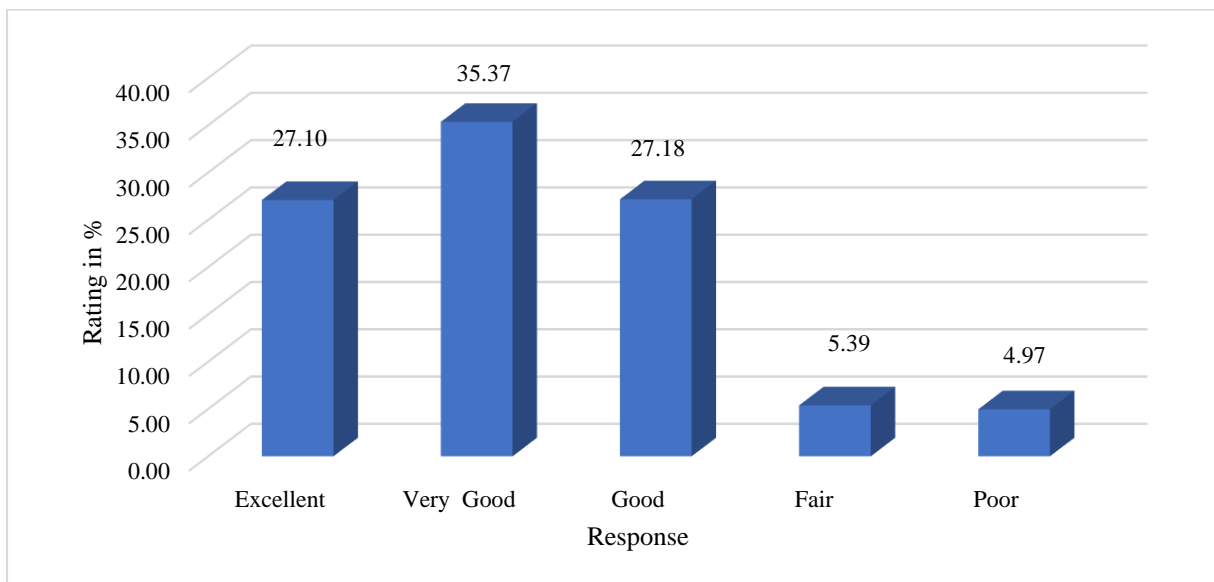

Figure 32

Figure 32 shows the student survey responses of “Overall experience of Institute of Aeronautical Engineering” in the institute. It was observed that 89.64 % of students were very much satisfied with the overall experience of institute of aeronautical engineering and remaining 10.36 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.
