Feedback Analysis on Facilities

Academic Year 2021-22

Average

Figure 1

Figure 1 describes the average rating of the questionnaire. From the student's feedback survey of facilities for the academic year 2021-22, it was observed that 86.32 % questionnaire have satisfied. Whereas, 13.68 % questionnaire have dissatisfied. Though the average dissatisfaction percent are less than 15 %, the student indicated the improvement needed from the individual questions asked to them under this survey. Response actions are need to be taken for improving the "Helpfulness of the Administrative Office Staff" and "Attitude of the Non-Teaching Staff towards students" in the institute, and response actions are need to be taken for improving the same. It was also noted that students are dissatisfied with the "Internet facilities", "Sport facilities", "Functioning of NSS", "Cultural Activities", "Extra-Curricular/Student support activities", "Competitions organized" and "Health Care Centre facility". Therefore, it is also recommended that institute should improve above mentioned points to satisfy students.

Convenience of College Schedule (Time-Table)

Figure 2

Figure 2 represents the student survey responses of “Convenience of College Schedule”. Based on the student’s feedback survey, it was observed that 88.26 % of students were satisfied with institute time table. But 11.72 % students were dissatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Helpfulness of the teaching staff

Figure 3

Figure 3 provides the student survey responses of 5127 students on “Helpfulness of the Teaching Staff” in the college. From the report, it was observed that 90.72 % of students feels satisfied with “Helpfulness of the Teaching Staff” and the remaining 9.28 % of them feel improvements. Since the percentage of dissatisfied students are below 15%, there are no actions needed.

Helpfulness of the Administrative office staff

Figure 4

Figure 4 shows the student survey responses of 5127 students on “Helpfulness of the Administrative Office Staff” in the college. It was observed that, 81.88 % of students were satisfied with “Helpfulness of the Administrative Office Staff” in the college and remaining 18.12 % students were dissatisfied. Since nearly 18% of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Attitude of Non-Teaching Staff towards Staff

Figure 5

Figure 5 presents the student survey responses of 5127 students on “Attitude of the Non-Teaching Staff towards students” in the institute. Based on the student’s analysis response report, it was concluded that 82.56 % of students were very much satisfied with “Attitude of the Non-Teaching Staff towards students” and remaining 17.44 % students were unsatisfied. Since over 17 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Library Facilities and Services

Figure 6

Figure 6 shows the student survey responses of 5127 students on “Library Facilities and Services”. It was noticed that 89.02 % of students were very much satisfied with “Library Facilities and Services” and remaining 10.98 % students were unsatisfied. Since the percentage of dissatisfied students are below 15%, there are no actions needed.

Laboratory Facilities

Figure 7

Figure 7 provides the student survey responses of 5127 students on “Library Facilities and Services”. Based on report, it was observed that 89.66 % of students were very much satisfied with “Library Facilities and Services”. Whereas, remaining 10.34 % students were unsatisfied. Since the percentage of dissatisfied students are below 15%, there are no actions needed.

Classrooms: Infrastructure

Figure 8

Figure 8 presents the student survey responses of 5127 students on “Classrooms: Infrastructure”. Based on the student’s analysis response report, it concludes 86.37 % of students were very much satisfied with “Classrooms: Infrastructure” and remaining 13.63 % students were unsatisfied. Since the percentage of dissatisfied students are below 15%, there are no actions needed.

Classrooms: Cleanliness

Figure 9

Figure 9 shows the student survey responses of 5127 students on “Classrooms: Cleanliness”. Based on the student’s analysis response report, it concludes 90.99 % of students were very much satisfied with “Classrooms: Cleanliness” and remaining 9.01 % students were unsatisfied. Since the percentage of dissatisfied students are below 15%, there are no actions needed.

Computer facilities

Figure 10

Figure 10 depicts the student survey responses of 5127 students on “Computer facilities”. Based on the student’s analysis response report, it concludes 90.31 % of students were very much satisfied with “Computer facilities” and remaining 9.69 % students were unsatisfied. Since the percentage of dissatisfied students are below 15%, there are no actions needed.

Internet Facility

Figure 11

Figure 11 presents the student survey responses of 5127 students on “Internet facilities”. Based on the student’s analysis response report, it concludes 81 % of students were very much satisfied with “Internet

facilities” and remaining 19 % students were unsatisfied. Since 19 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Cleanliness and Ambiance of Campus

Figure 12

Figure 12 shows the student survey responses of 5127 students on “Cleanliness and Ambiance of Campus”. Based on the student’s analysis response report, it concludes 92.45 % of students were very much satisfied with “Cleanliness and Ambiance of Campus” and remaining 7.55 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Toilets Availability and Maintenance

Figure 13

Figure 13 depicts the student survey responses of 5127 students on “Toilets: Availability and Maintenance”. Based on the student’s analysis response report, it concludes 85.39 % of students were very much satisfied with “Toilets: Availability and Maintenance” and remaining 14.61 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Availability of Drinking water

Figure 14

Figure 14 presents the student survey responses of 5127 students on “Availability of Drinking water”. Based on the student’s analysis response report, it concludes 90.79 % of students were very much satisfied with “Availability of Drinking water” and remaining 9.21 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Hostel Facilities

Figure 15

Figure 15 shows the student survey responses of 5127 students on “Hostel facilities”. Based on the student’s analysis response report, it concludes 86.02 % of students were very much satisfied with “Hostel facilities” and remaining 13.98 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Sort Facilities

Figure 16

Figure 16 depicts the student survey responses of 5127 students on “Sport facilities”. Based on the student’s analysis response report, it concludes 72.4 % of students were very much satisfied with “Sport facilities”. Notably, remaining 27.6 % students were unsatisfied. Since over 27 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Functioning of NSS

Figure 17

Figure 17 depicts the student survey responses of 5127 students on “Functioning of NSS”. Based on the student’s analysis response report, it was concluded that 80.91 % of students were very much satisfied with “Functioning of NSS” and remaining 19.09 % students were unsatisfied. Since near 19 % of the

total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Cultural Activities

Figure 18

Figure 18 depicts the student survey responses of 5127 students on “Cultural Activities”. Based on the student’s analysis response report, it was concluded that 78.56 % of students were very much satisfied with “Cultural Activities”. Notably, remaining 21.44 % students were unsatisfied. Since over 21 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Extra-Curricular/ Student support activities

Figure 19

Figure 19 depicts the student survey responses of 5127 students on “Extra-Curricular/Student support activities”. It was found that 79.81 % of students were satisfied with “Extra-Curricular/Student support activities”. Particularly, 20.19 % students were unsatisfied. Since over 20 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Completion Organized

Figure 20

Figure 20 presents the student survey responses of 5127 students on “Competitions organized”. Based on the student’s analysis response report, it concludes 83.01 % of students were very much satisfied with “Competitions organized”. Whereas remaining 16.99 % students were unsatisfied. Since over 16 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Functioning of Departmental Associations

Figure 21

Figure 21 shows the student survey responses of 5127 students on “Functioning of Departmental Associations”. It was observed that 86.23 % of students were satisfied with “Functioning of Departmental Associations” and remaining 13.77 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Benefits from Departmental Association Activities

Figure 22

Figure 22 presents the student survey responses of 5127 students on “Benefits from Departmental Associations activities”. Based on the student’s analysis response report, it concludes 85.92 % of students were very much satisfied with “Benefits from Departmental Associations activities” and remaining 14.08 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Functioning of Placement Cell

Figure 23

Figure 23 depicts the student survey responses of 5127 students on “Functioning of Placement cell”. It was found that 88.47 % of students were very much satisfied with “Functioning of Placement cell”. Whereas remaining 11.53 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Mechanism to redress the grievance of Students

Figure 24

Figure 24 presents the student survey responses of 5127 students on “Mechanism to redress the grievances of students”. Based on the student’s analysis response report, it was observed that 87.15 % of students were satisfied with “Mechanism to redress the grievances of students” and remaining 12.85 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

The Practice of conducting the examinations

Figure 25

Figure 25 shows the student survey responses of 5127 students on “The practise of conducting the examinations”. Based on the student’s analysis response report, it concludes 87.32 % of students were satisfied with “The practise of conducting the examinations” while remaining 12.68 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Health Care Centre Facility

Figure 26

Figure 26 depicts the student survey responses of 5127 students on “Health Care Centre facility”. It was observed that 84.28 % of students were satisfied with “Health Care Centre facility” and remaining 15.72 % students were unsatisfied. Since over 15 % of the total surveyed students are dissatisfied, the response actions are need to be taken for improving the same.

Parking Facility

Figure 27

Figure 27 presents the student survey responses of 5127 students on “Packing facility”. Based on the student’s analysis response report, it was concluded that 88.18 % of students were satisfied with “Packing facility”. Whereas remaining 11.82 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Canteen Facility

Figure 28

Figure 28 depicts the student survey responses of 5128 students on “Canteen facility”. It was noticed that 88.22 % of students were satisfied with “Canteen facility” while remaining 11.78 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Counselling Facility

Figure 29

Figure 29 shows the student survey responses of 5128 students on “Counselling facility”. Based on the student’s analysis response report, it was concluded that 87.52 % of students were very much satisfied with “Counselling facility” while remaining 12.48 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

System of prevention of gender-based harassment

Figure 30

Figure 30 presents the student survey responses of 5128 students on “System of prevention of gender-based harassment”. It was observed that 90.44 % of students were very much satisfied with “System of prevention of gender-based harassment” and remaining 9.56 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Mechanism for preventing ragging

Figure 31

Figure 31 depicts the student survey responses of 5128 students on “Mechanism for preventing ragging”. Based on the student’s analysis response report, it was concluded that 90.87 % of students were very much satisfied with “Mechanism for preventing ragging”. Notably, remaining 9.13 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.

Overall experience of institute of Aeronautical Engineering

Figure 32

Figure 32 shows the student survey responses of 5128 students on “Overall experience of Institute of Aeronautical Engineering”. It was observed that 91.16 % of students were very much satisfied with “Overall experience of Institute of Aeronautical Engineering”. Notably, remaining 8.84 % students were unsatisfied. Since the percentage of dissatisfied students are below 15 %, there are no actions needed.
